

20739 SCOFIELD DRIVE

PROJECT DESCRIPTION

The project site is currently occupied by a single-family home. Neighbors on both the left and the right sides are also single-family homes. The rear yard abuts a commercial parking lot.

The proposed project is to demolish the existing single-family home, remove three existing trees and construct a 5-story building, in which the first floor will be a parking garage and the upper floors will contain twenty residential units.
