CEQA Overview

The **California Environmental Quality Act** (CEQA) is the foundation of environmental law and policy in California.

The **basic goal** of CEQA is:

To develop and maintain a high-quality environment now and in the future.

CEQA Overview

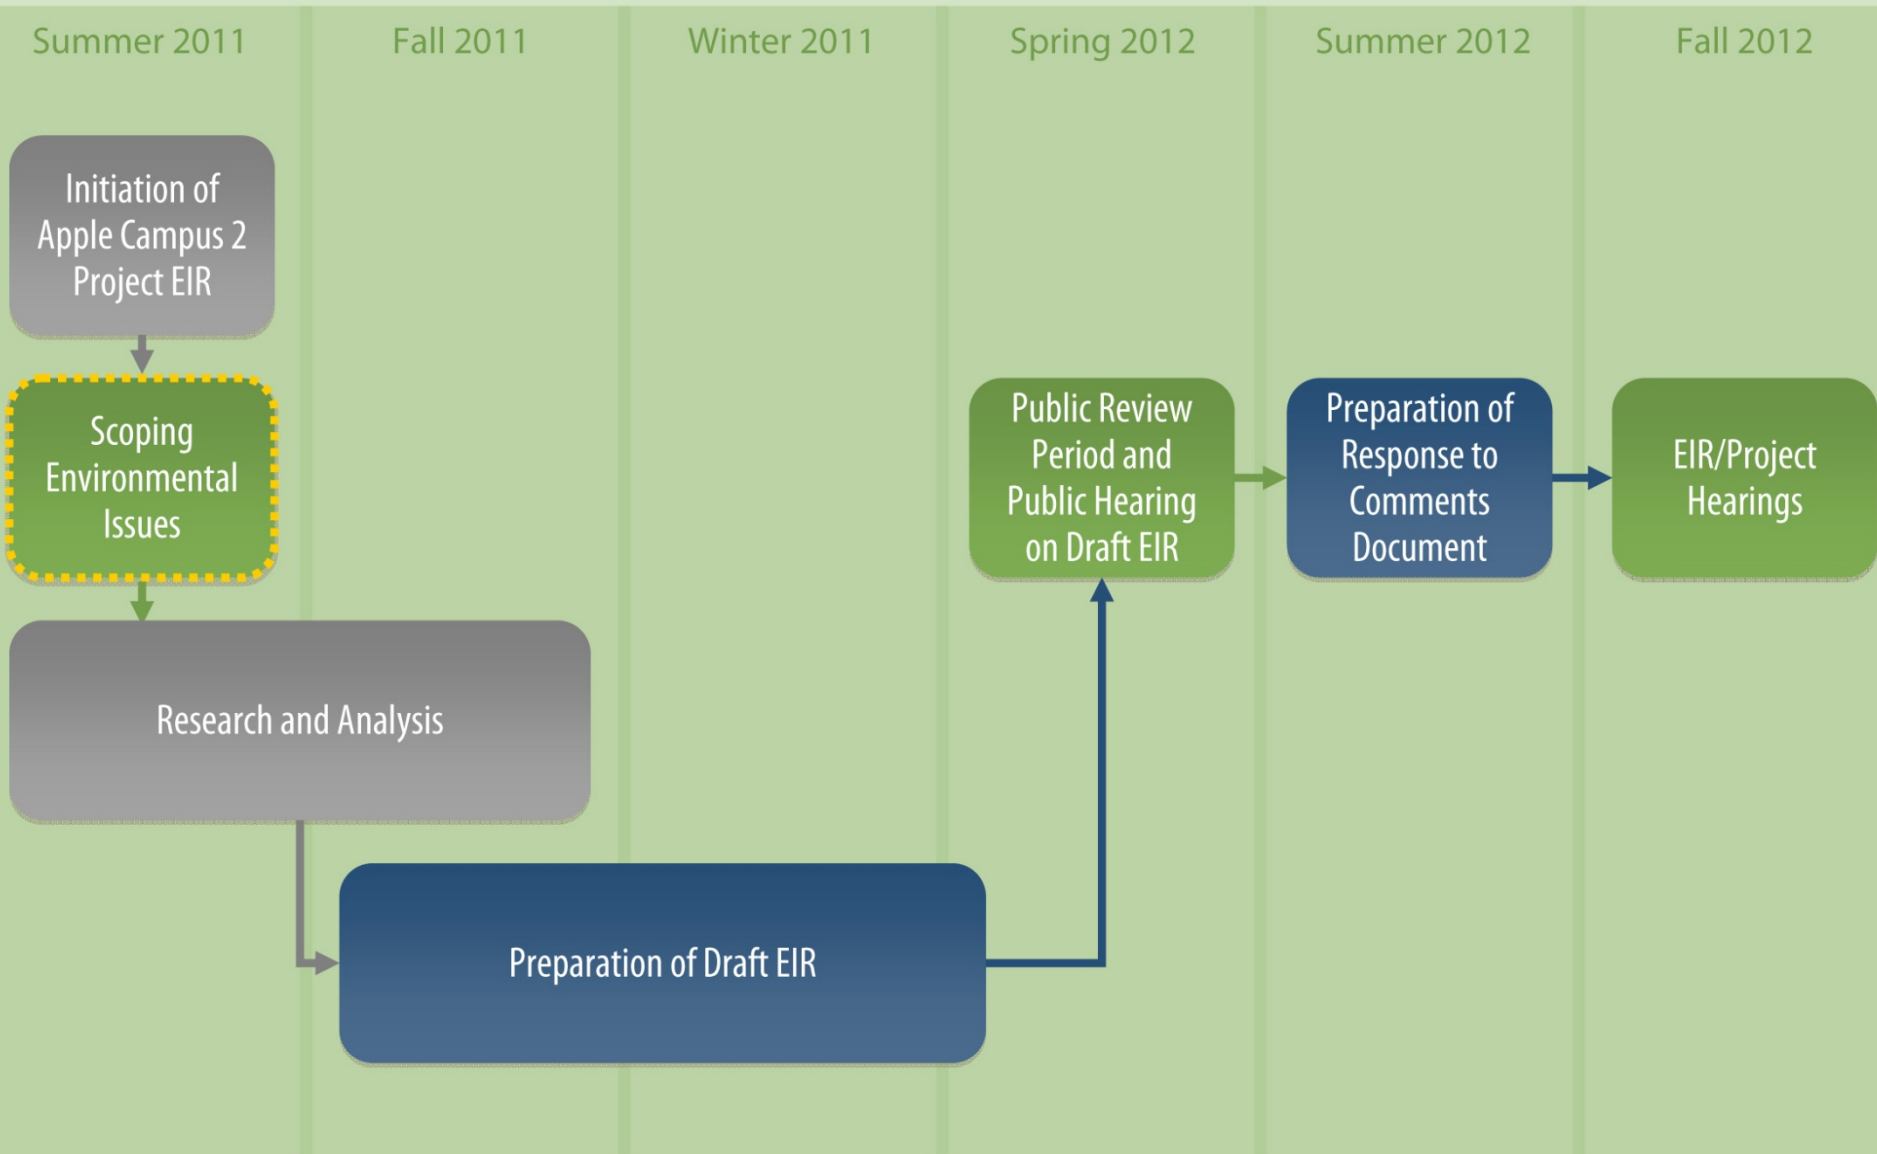

The specific goal of CEQA for **lead agencies** is:

- To identify and disclose the significant environmental effects of their actions (e.g., project or plan), and either:
 - ***Avoid*** those significant environmental effects, where feasible; or
 - ***Mitigate*** those significant environmental effects, where feasible.

Purpose of Scoping Session

To receive comments from the public and agencies regarding environmental topics and alternatives that should be evaluated in the Environmental Impact Report (EIR).

Environmental Review Process

Environmental Topics

The EIR to be prepared for the Apple Campus 2 Project will be comprehensive and will address the following topics:

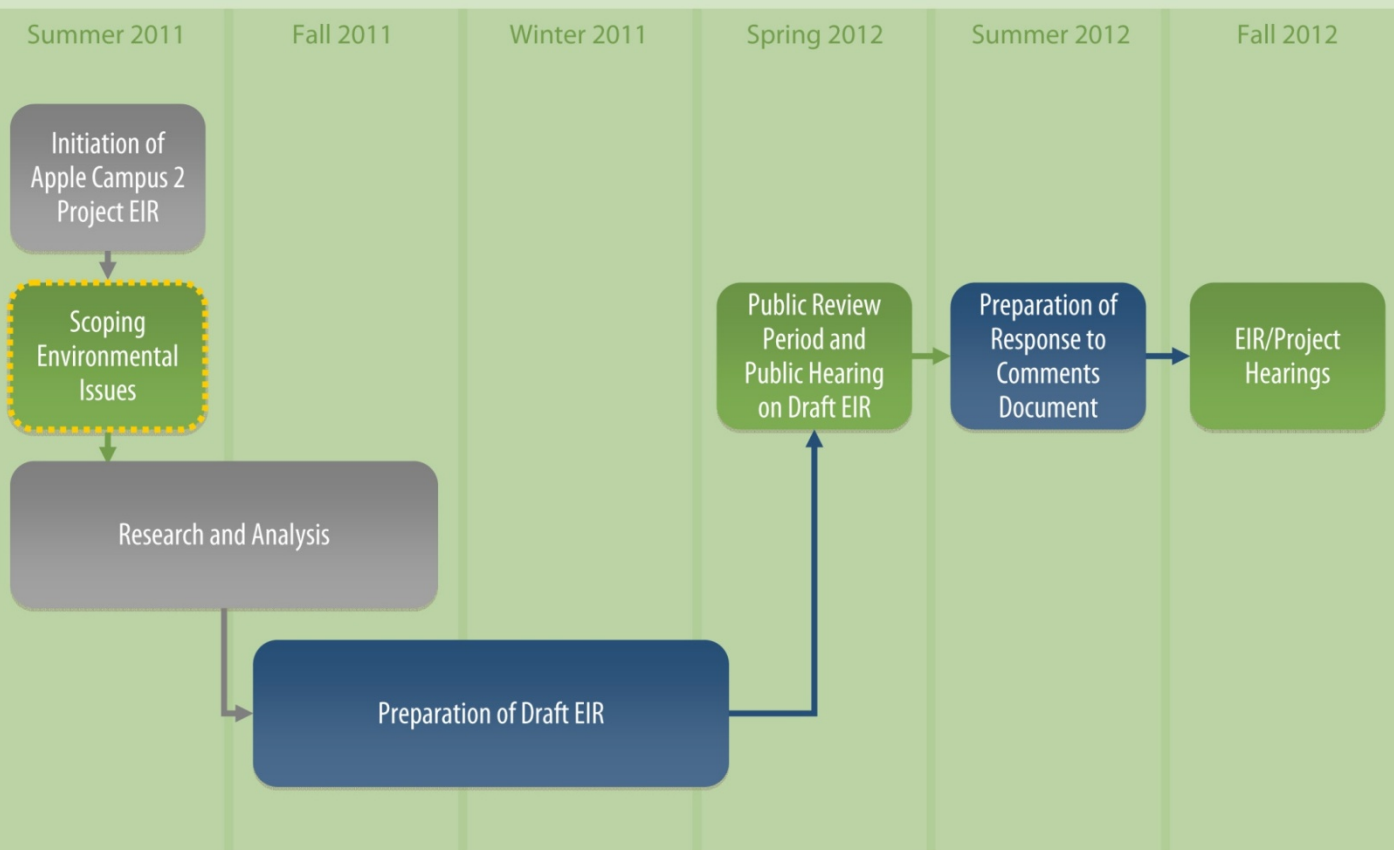

- Land Use and Planning Policy
- Aesthetics
- Population, Employment and Housing
- Biological Resources
- Cultural Resources
- Geology, Seismicity and Soils
- Hydrology and Water Quality
- Hazards and Hazardous Materials
- Transportation and Circulation
- Noise
- Greenhouse Gas Emissions and Sustainability
- Air Quality
- Public Services and Utilities

Table Discussion Format

- Introductions
- Select a spokesperson to report out
- Scribes to document all topics identified by the group
- Groups identify top three environmental topics

Next Steps

Environmental Review Process

Deadline:
Sept. 19, 2011
