

Emergency FRS Frequencies

- For communication within neighborhoods and among CERT teams during disasters
- For communicating with Reporting Locations when all phone systems are down

If your radio has GMRS frequencies, in addition to FRS frequencies...please be sure your GMRS radio is using the reduced wattage (.5) that matches FRS radios. Using a GMRS radio, at the higher wattage, without having an \$80 GMRS license results in a \$5,000 fine.

If you are unable to reach your Reporting Location, via FRS radio, during a drill, go to the Reporting Location, within the set hours of the drill, and try to troubleshoot the problem. At other times, you can call 408-777-3335 with questions.

Reporting Location Map <http://www.cupertino.org/Modules/ShowDocument.aspx?documentid=548>

First number is the main frequency, second number is the sub-frequency (smaller number in upper right of LED screen)

Frequency	Location	Additional Comments
1.1	Cupertino Medical Center	Bubb Rd @ Stevens Creek behind 76 Station
2.2	DeAnza College	Stelling Rd next to baseball field
3.3	Garden Gate Elementary School	Greenleaf @ Ann Arbor near baseball field
4.4	Hyde Middle School	Hyde Ave @ Bollinger Rd near the track
5.5	Lawson Middle School	Vista Dr. @ Merritt near basketball courts
6.6	Monta Vista Fire Station	Stevens Creek @ Prado Vista Park in the Church parking lot across the street
7.7	Seven Springs Homeowners Association – Seven Springs Pkwy @ Stelling Rd.	Park in the clubhouse parking lot
