The City of Cupertino's Work Program guides the major efforts of the City for the upcoming fiscal year. The Work Program ensures that staff efforts are aligned with the goals set by the Mayor and City Council, and thus, the community. This approach keeps the City transparent and holds us accountable to focusing resources on strategies that best serve our community's needs and aspirations. Each year, staff reports on the progress of the City's Work Program assignments and, with feedback and ideas proposed at the City Council's Priority Setting Session, proposes new projects for Council consideration.
