## **Increase Truck Traffic at Stevens Creek & Foothill Boulevards**

In October, Stevens Creek Quarry (located at 12100 Stevens Canyon Road) began running several large trucks to and from Lehigh Permanente Quarry (located at 24001 Stevens Creek Boulevard). The trucks are running from approximately 6am to 3:30pm Monday – Friday (except holidays). It is anticipated that these trucks will haul materials from Lehigh Permanente Quarry to Stevens Creek Quarry for up to six months.

Several complaints have been received due to the truck traffic. Complaints include increased dust, increased noise, intermittent blocking of through traffic and illegal turning movements made by the trucks. In response to these concerns, the City has requested that Stevens Creek Quarry sweep the intersection four times per day and to space out the trucks so that through traffic is not impeded. The City has also requested that the Sheriff frequently monitor the intersection and issue citations to truck drivers that impede traffic and/or conduct illegal turns.

If you would like more information from the City, please call Roger Lee – Assistant Director of Public Works at (408) 777-3354 or email at [rogerl@cupertino.org](mailto:rogerl@cupertino.org).

If you would like more information from the County, please call Christopher Hoem – Senior Planner at (408) 299-5784 or email at [christopher.hoem@pln.sccgov.org](mailto:christopher.hoem@pln.sccgov.org).
