Take a Breath Bay Area

Silicon Valley continues to be home to highly driven individuals who work under high pressure to deliver in an intensely competitive environment. As health conditions resulting from stress reach epidemic levels, the Art of Living Foundation announces the launch of Take a Breath Bay Area campaign which aims to raise public awareness of the harmful effects of stress. It provides simple and effective solutions that decrease the impact of stress, calm the mind and improve overall well being. For more information about this campaign and to register, visit takeabreathbayarea.org.

Who is the Cupertino Citizen Corps?

When a disaster strikes, be it earthquake, flood, hazmat spill or other disaster, there is a team of trained volunteers who are prepared to help known as the Cupertino Citizen Corps (CCC). Supported by the City, SC Fire, SCC Sheriffs, and other agencies the CCC members go through extensive training

to provide additional help when resources are stretched thin. They also offer training and outreach events to inform residents how to prepare for and survive after a major disaster. The Citizen

Corps is prepared to staff resources called ARKs which are stationed around Cupertino and gather emergency information for the City Emergency Operations Center (EOC), perform basic first aid, perform light search and rescue, provide neighborhood safety assessments, and keep the residents informed of emergency information provided by the City. The CCC is comprised of the following volunteer members:

Community Emergency Response Team (CERT) – This core group is trained to help in all of the most common disaster situations. Training includes light search and rescue, fire safety, disaster medical operations, disaster psychology, hazardous materials identification, the incident command structure, and terrorism.

Cupertino Amateur Radio Emergency Service (CARES) – A group of amateur radio volunteers whose mission is to assist the city by providing professional emergency communications, increasing the City's emergency response effectiveness, and speeding the recovery effort.

Medical Reserve Corps (MRC) – These medical volunteers promote health safety to citizens throughout the year and function as a specialized medical unit in the City's emergency response plan. Various levels of training offer disaster medical care from basic first aid to emergency medical procedures.

Disaster Animal Rescue Team (DART) – This group is activated when the City experiences an earthquake or other emergency that causes animals to need care and shelter in the absence of their owners.

If you do only one thing to prepare this month: Look into volunteering with the City of Cupertino Citizen Corps or some other organization. You will be glad you did.

Block Leaders – Provide a point of contact in a neighborhood to the City Manager's Office throughout the year and an informational source for neighborhood disaster assessment to the local ARK (Emergency Reporting locations) volunteers and thus to the City.

Neighborhood Watch – Volunteer leaders work with the Sheriff's Office to organize their neighborhood to be on the watch for suspicious activity.

'We Need You' - There is always a need for more volunteers. All of us have some skill to become a contributor to our team and give back to the community. Your service as a volunteer will be rewarding and educational, and you will be helping to protect your family and friends. If this is not for you, other opportunities in the community are also available. Contact us at the Cupertino Office of Emergency Services (OES) at 408.777.3335, email OES@cupertino.org for more information.

Upcoming Public Training Sessions:

Earthquake Preparedness and Home Safety
Get your group, club, organization, or friends together (8 or more) and request a FREE one hour presentation from Cupertino Office of Emergency Services. This class can come to you at your home, office, church, club or we can host it at Cupertino City Hall. You will learn how to prepare for an earthquake, stay safe during an earthquake, and cope afterward. Also, you will learn valuable tips on how you can be safe at home during other disasters and about general home safety. Contact the Cupertino Office of Emergency Services (OES) at 408.777.3335, email OES@cupertino.org for more information, or to request a class for your company, group or organization. Schedule your class now!

FREE! West Valley Personal Emergency Preparedness (PEP) Course, 3 hours - Learn how to prepare to be on your own for several days after the next large disaster. Training includes disaster supply kit, home and workplace preparedness, treating life threatening conditions, fire prevention, fire extinguishers and hazardous materials. Saturday, June 2, 9 am - 12 pm, Campbell Community Center (Q-84 Mary Campbell Room), 1 West Campbell Ave, Campbell. For registration or questions, email stephanie.morrison@cnt.sccgov.org or call 408.341.4422. Please provide your full name, e-mail address, phone number and city of residence or workplace in the West Valley.

by Gail Fretwell-Hugger

Pierre Klein was born in Alsace, France in 1855. In 1875 he arrived in San Francisco. He met Victorine Wittman at an Alsatian social function and they were married February 16, 1878 at the Notre Dame des Victoires French church on Bush St. The 1906 earthquake collapsed the church roof and as the fire approached, the priests buried the sacred vessels in the courtyard garden along with the registry of marriages and christenings. Days later, the items were dug up, intact. The church was later rebuilt at 566 Bush St. and declared Historical Landmark #174 in 1985. The four Klein children were baptized in the church: George M. born 1879, Marie G. born 1880, Victorine (named for her mother) born 1882 and Pierre Jr. born in 1887.

Pierre Sr. ran a successful restaurant in San Francisco for a time and in 1888 he bought 160 acres on Montebello Ridge in the Cupertino foothills. He planted vineyards, a winery and other buildings and named his property Mira Valle, which he said honored the Spanish heritage of the county. The name meant "Look at the Valley", but his children always just called it, "the ranch". The property was not far from Montebello School, farther up the road. Mira Valle produced excellent wines and Pierre won gold medals in various wine competitions. He also wrote articles on wine and wine-making for various publications.

Oldest son George worked for a time and then attended Stanford University. He belonged to the Mechanical Engineering Association at school. He and other engineering students

worked on rebuilding the damaged campus structures after the 1906 earthquake. He was very musical and became a successful businessman.

Marie G. graduated from San Jose Normal School and taught in many schools in San Francisco. One of her students was the award winning journalist Pierre Salinger, who became President John F. Kennedy's press secretary. Victorine also graduated from S.J. Normal School in 1903. She taught at Montebello School for one year and then taught at Mt. View Elementary School from Oct. 1904 through 1934, when she applied for retirement.

Victorine J. Klein

Pierre Jr. went to business college for a short time. Apparently he suffered from a type of depression. Records show that he was at French Hospital in San Francisco in 1909 and Clarke's Sanitorium in Stockton in 1912. In 1917 records show he went into the service for WWI but only served briefly. His sister Victorine promised her mother she would look after Pierre Jr. and he lived with her in Mt. View off and on.

In 1913, Pierre Sr. and his wife Victorine sold Mira Valle - the vineyards, winery and all other buildings for the amazing sum of \$10.00. He then bought 28 acres of farmland near Sacramento - for \$10.00. The reasons for this peculiar sale and subsequent purchase were never explained and remain a mystery to this day. Pierre Jr. lived off and on at the place near Sacramento and farmed the land.

In 1919, Mrs. Klein died at the home she and her husband shared in Mt. View. Pierre Sr. then went to live with daughter Marie in San Francisco. On September 9, 1922, he went to visit his daughter Victorine and son Pierre Jr. at the home they shared in Mt. View. During the visit, Pierre

Sr. went outside to a small garage. After hearing a muffled noise, Pierre Jr. went out to find his father dead of a self-inflicted gunshot wound. It was speculated that he was very despondent after the death of his wife.

Of the four Klein children, only George married and had children. Marie and Victorine had long and distinguished teaching careers in San Francisco and Mt. View. Pierre Jr. entered Agnews State Hospital in 1930, left in 1931 and was readmitted in 1933. He remained in Agnews until his death in 1948. Sister Marie said that her brother was too "kind-hearted" to have served in the war and felt it had contributed to his mental despondency.

Today Mira Valle has passed to other owners but some of the early vines remain on Montebello Ridge, their leaves turning crimson against the purple grapes in the fall.

RABBIT IN THE MOON FILM SCREENING AND DISCUSSION WITH CHIZU OMORI

Saturday, June 9, 2 pm

Cupertino Community Hall

Like many Japanese Americans released from WWII internment camps, the young Omori sisters did their best to erase the memories and scars of life under confinement. Fifty years later acclaimed filmmaker Emiko Omori asks her older sister and other detainees to reflect on the personal and political consequences of internment. From the exuberant recollections of a typi-

cal teenager, to the simmering rage of citizens forced to sign loyalty oaths, Omori renders a poetic and illuminating picture of a deeply troubling chapter in American history.

Compost with Success

Just over one third of the waste entering landfills is organic material, with food comprising 15% of the total waste stream. Composting is a beneficial and logical option to reduce the volume of landfilled organic material, and it produces a valuable product that enhances soil and benefits new growth. Rotting organic matter turns into methane, one of the most potent global warming gasses. What can you do to help the environment? Place all food scraps directly into your yard waste cart, or wrap them in newspaper or a paper bag first.

The City provides free compost to its residents from the last weekend in March through October 20 on Fridays and Saturdays from 8:30 – 11 am at 12100 Stevens Canyon Road.

For the best gardening results, mix your compost with 50% dirt. Compost is intended as an amendment to enrich the soil; unblended compost is too hot or nutrient-rich for plants and lawn. The free compost comes from Cupertino's food and yard waste collection program through Recology and is processed at South Valley Organics, Inc. through a strict quality assurance program. For more information please contact Environmental Programs at environmental@cupertino.org or 408.777.3354.

Taste of Cupertino

Saturday, June 9, 2012, 4:30 - 7:30 pm
Vallico Shopping Mall

Cupertino Chamber of Commerce proudly presents 'Taste of Cupertino' that showcases the diversity of Cupertino's food scene. For just \$30, the guests will enjoy good eats from Cupertino's favorite restaurants, music from local bands and wine and beer experience

Cupertino Will Become a Clean Zone

Cupertino's streets and creeks have been negatively impacted by litter. To prepare for the new State mandate to reduce 100% of the litter generated annually in Cupertino by July 1, 2022, and to reduce 40% of the litter by July 1, 2014, litterers in Cupertino may be cited and fined a minimum of \$100 for a first-time litter violation. Locally and nationwide, cigarette butts are the number one litter item. The problem is that litter doesn't stay in one place. If not swept up or cleaned up, litter will be carried by wind or rain to stormdrain inlets that are designed to capture only rain. As a result, litter causes flooding at local creeks. When litter enters the stormdrain system it has begun its journey, first to local creeks, then to the Bay and into the ocean. Please do your part. NEVER litter our environment. When safe to do so, pick up litter and properly dispose of it. You may also consider joining an on-land or creek cleanup event. Visit www.cleancreek.org to check out local events.

2012 Garage Sale Date Set

The Citywide Garage Sale will be held on September 22 and 23 this year. Look for sale details in next month's Scene and on our website at www.cupertino.org/environmental in the coming months.

What Do You Do with Household Hazardous Waste?

Contact Waste Management (WM) At-Your-Door service to collect your household hazardous waste. An appointment for collection can be made at www.wmatyourdoor.com or by calling 800.449.7587.

Mike Rohde, the event chair states, "The Taste of Cupertino is an excellent opportunity for the community to kick off summer by trying out the culinary delicacies from the local restaurants. Our goal is to promote local restaurants and remind the community how great our restaurants are."

To purchase tickets, please contact the Chamber office at 408.252.7054 or visit www.cupertino-chamber.org.

» Spring Into Action

Exercise Caution When Choosing Pesticides

With spring comes new life and new opportunities to make better decisions for your garden and the environment. With all the new growth, pests are not far behind. Please make careful choices when purchasing pest control products.

After the highly publicized voluntary recalls of diazinon and chlorpyrifos (Dursban) as home and garden pesticides, consumers might think that most products on store shelves are safer. But this is not the case. A new class of pesticides has become prominent: pyrethroids. Pyrethroids are designed to kill a wide variety of pests, such as lawn grubs and ants. But pyrethroids are highly toxic to beneficial insects like ladybugs, earthworms, and lacewings, which help to keep problem pests in-check. Once these beneficial insects and the natural checks and balances they provide has been eliminated, pests are free to multiply. Pyrethroids are also priority pesticides of concern because they have been linked to widespread toxicity in California surface waters.

Garden pesticides are a particular problem when it comes to stormwater pollution. Once they are washed away by rain and watering, pesticides flow into storm drains, polluting local creeks and the Bay, and harming fish and other aquatic life. Tips to avoid toxic choices while maintaining beautiful yards and gardens are:

- Read labels. The word “pyrethroid” may not appear on a label, but look for these active ingredients: permethrin, bifenthrin, cyfluthrin, cypermethrin, deltamethrin, lambdacyhalothrin, and tralomethrin. Active ingredient names ending in “-thrin” are usually pyrethroids. Download a free pocket guide that gives examples of products without pyrethroids at www.ourwaterourworld.org.
- When shopping, seek the least toxic products. Look for shelf signs with the Our Water, Our World name and logo, which draw attention to safer choices in each category. Participating stores include Orchard Supply Hardware, Ace Hardware Stores, Home Depot, Summerwinds and Yamagami’s Nursery.

Community Emergency Response Team (CERT) training schedule. Your chance to be part of the Cupertino disaster response solution. This is an intensive training session on preparedness and helping others during a disaster. Must be able to attend all classes for graduation. Classes are on July 10, 11, 12, 17, 18, 19 (evenings, 6 – 9 pm) and July 21 (Saturday morning, 10 am - 1 pm), Cupertino City Hall/EOC, 10300 Torre Ave, Cupertino. The cost is \$35 for all classes. If you have questions email: stephanie.morrison@sccfd.net or call 408.341.4486. For registration, visit www.cupertino.org/emergency.

Cupertino Cares On The Air

How prepared will you be when disaster strikes? The U.S. Geological Survey (USGS) predicts a magnitude 8.0 or higher earthquake will happen in Cupertino in the next 30 years. Disasters can also come in other forms, including fires, wind, flooding, or terrorism.

On Saturday, June 23, Cupertino Amateur Radio Emergency Service (CARES) will participate in the annual Field Day, a 24-hour exercise in amateur radio emergency communications. Every year the American Radio Relay League (ARRL, www.arrl.org) sponsors this national event to test amateur radio's ability to set up for an emergency, and to practice message-passing capability. A scoring system allocates points for each type of contact, including communication with different regions around the country.

On Field Day, CARES will operate in emergency mode at a temporary Emergency Operations Center (EOC), using generators and batteries on the front lawn of the Cupertino City Hall. The Cupertino communications van will be operational and available for public viewing.

All are invited to come and see what amateur radio is all about, from 11 am - 5 pm on Saturday, June 23, on Torre Avenue in Cupertino, between City Hall and the library. We will demonstrate various modes of communication including HF voice, Morse code, digital communications, Amateur TV, and VHF digital packet as well as satellite operations (using earth-orbiting satellites for ham radio communications).

More information about Cupertino emergency preparedness is available at www.cupertinoares.org, including how to volunteer for various groups and how to obtain an amateur radio license.
