The Cupertino Tournament of Bands is the beginning of the fall marching band competitions in Northern California. It has been a city showcase for the past 44 years. The tournament is a fund raiser for the Cupertino High School Marching Band and Colorguard, assisting in the advancement of the performing arts in Cupertino. Cupertino Tournament of Bands showcases more than 20 high school bands from around Northern California with a parade and field show competition. This year should be an event to behold.

Schedule:

10 am: Parade competition begins on Stevens Creek Boulevard (Free to the public)

12:30 pm: Drill-down competition in the Cupertino High School Stadium (Free to the public)

4 pm: Field show competition begins in the Cupertino High School Stadium (Cost is \$10 per person, cash only)

8 pm: San Jose University Spartan Marching Band performs in exhibition

9 pm: Field show awards

Earthquake, Where Do You Go For Help?

OK, now that there has been a major earthquake up near Napa, it's time to get educated about earthquakes and what to do. Last month I wrote about what to do once an earthquake hits and having a good communication plan beforehand. Now what? You need help and cell and home phones are not working. You are not sure where the nearest Fire Department is, and you or your neighbor has an injury which needs medical help. Or there is a fire in the neighborhood. Luckily Cupertino is one of the few Bay Area cities that is well prepared. There is a network of reporting stations, called ARKs, which are located throughout the city and will be setup and staffed by the Cupertino Citizen Corps volunteers. You should know where your assigned ARK is located and go there to get help, report hazards, or to get emergency related information.

What are the ARKs Located?

During an emergency, ARKs or Emergency Reporting Stations can be found at the following Cupertino locations:

- De Anza College, 21250 Stevens Creek Boulevard
- Hyde Middle School, 19325 Bollinger Road
- Lawson Middle School, 10401 Vista Drive
- Garden Gate Elementary School, 10500 Ann Arbor Avenue
- Monta Vista Fire Station, Stevens Creek @ Prado Vista
- Seven Springs, Prospect @ Stelling Road
- Cupertino.org/ARK

Also see: www.cupertino.org/ARK

What is an ARK and What Can the Staff Help With?

The ARK will be staffed by Citizen Emergency Response Team (CERT) team members, Medical Reserve Corps (MRC) members, and Cupertino Amateur Radio Emergency Service (CARES) members. The task of an ARK is to take in incident reports from the residents and either handle the emergencies or pass the needs and information to the Cupertino Emergency Operations Center (EOC). If the ARK has enough staff, the members can do light search and rescue, first aid, damage assessment and safety containment. The ARK will also pass along information to the public that it gets from the EOC, such as shelter information, water locations, sewer and water safety, and other emergency information. An ARK is your link between the EOC, and the public. ARKs contain a host of supplies which are used by ARK staff for the functions above. It is important to remember that they are not emergency food, water or equipment depots for resident use. It is important that

you have emergency supplies, like food, water, flashlights, an AM/FM radio and first aid kit, for you and your family for 3-5 days. We do offer a free Earthquake Preparedness Class to help you get ready. See the listing below to set up a class for your neighborhood. During an emergency the EOC will be staffed by city leaders from various critical departments, SCC Sheriff Representatives, SCC Fire representatives, and various other emergency representatives. It is the EOCs job to set the priorities and give direction to the Community Emergency Response Volunteers and to allocate resources where they will do the most good for the greatest number of citizens.

Upcoming Public Sessions:

FREE! Earthquake Preparedness and Home Safety. The class is one hour and is scheduled on request for Cupertino businesses, churches, or social groups of 8 or more. This class can come to you! Contact the Cupertino Office of Emergency Services (OES) at 1.408.777.3335, email OES@cupertino.org for more information, or to request a class for your company, group or organization.

FREE! Personal Emergency Preparedness Class (PEP) offered by the Santa Clara County Fire Department. The class covers Earthquake safety, Disaster preparation, Disaster communication tips, First aid techniques that save lives, Home safety, Fire Safety including how to use a fire extinguisher, Emergency supply suggestions - and more! The next two PEP classes are: Tues, October 14, 6 – 9 pm, Campbell Community Center, 1 W. Campbell Ave Room E-42, Campbell and Monday, November 3, 6 – 9 pm, Los Gatos Sr. Center, 208 E. Main St, #214, Los Gatos, CA, 95030. For registration by e-mail, info@cnt.sccgov.org, (provide your full name, e-mail address, phone number and residential or work address in the West Valley), or contact the Santa Clara County Fire Department at 408.378.4010.

Community Emergency Response Team (CERT) training schedule. This is the perfect time to learn to be part of the disaster response solution. This is an intensive training session by the Santa Clara County Fire Department on preparedness and helping others during a

roots | The Legacy of Louis Stocklmeir

by Gail Fretwell-Hugger

This summer the third section of the Stevens Creek Trail in Cupertino opened to much fanfare and speeches. Happy throngs finally were able to meander from the end of Blackberry Farm parking lot, through the orange groves and along the creek to the trail's exit onto Stevens Creek Blvd. Behind a chain link fence near the S.C. Blvd. end of the trail stands the family home of Louis and Gladys Stocklmeir, early residents of Cupertino. Louis' father, Matthias was born in Amberg, Bavaria in 1861 and left at age 16 to come to the U.S. where he served in the army until he married Miss Adelheid Irmeler. The couple then lived in Los Gatos. Matthias made three journeys to Alaska during the Yukon Gold Rush and suffered great hardships, twice losing all his possessions. Eventually Matthias and Adelheid purchased 3 acres along Stevens Creek....but his wanderlust set in and he wanted to try Alaska one more time. He spent a few months, then came back and increased the property to 6 acres. Matthias and Adelheid had 3 children:

Louis E., who graduated Stanford as a civil engineer, daughter Adele, a teacher at College of Notre Dame and Alphonse, who also became a civil engineer. Eventually, the property along the creek increased to 22 acres. Sadly, Matthias passed away in 1919 during the influenza epidemic. Louis E. married Miss Gladys Wagnitz in 1920 and they continued residence in the "Cottage By The Creek," raising 2 sons; Louis Jr. who was his father's business partner and Dean, a Lt. Commander in the U.S. Navy. In addition to a career in civil engineering, Louis was a rancher and avid historian, becoming known as Cupertino's official historian. He was in the forefront with others, planning the future incorporation of Cupertino

to keep it from being swallowed up by San Jose. He led in the preservation of the Petit Trianon at the De Anza College campus - which became known as the Louis E. Stocklmeir Regional History Library at the De Anza College History Center. Stocklmeir School in Sunnyvale was also named after him. Louis also engineered the moving of a 10 ton boulder from the bed of Stevens Creek to the Monta Vista High School campus where it prominently features a state historic plaque commemorating the 1776 encampment site of Spanish explorer, Juan Bautista De Anza. Only one such marker per county is allowed by the state, so Cupertino is very fortunate to have one in our city.

Louis wrote many historical articles and helped trace the route of the De Anza party from Mexico to upper San Francisco Bay to aid in the statewide celebration of the bi-centennial of the De Anza Trek in 1976. Louis and Gladys' home by Stevens Creek was filled with the many awards he received, based on his historical research and documentation of people, places and events locally and statewide. His hand-built stone pond near the house attracted deer and other small animals that generations of Cupertino residents glimpsed through the trees while walking or driving by the house. The children of Louis and Gladys Stocklmeir

recall many happy days and family occasions celebrated at the cottage and property along the creek. The Stocklmeir home is worthy of full restoration so our community can once again view and appreciate the home of a couple who gave so much to Cupertino and preserved part of their land for others to enjoy.

disaster. The course is offered four times a year and you will have one-year to make up any missed sessions for graduation. You may attend the final exercise once all six sessions have been completed. We encourage all Cupertino residents to attend this worthwhile training.

The next class runs (Tuesday-Thursday) November 4, 5, 6 and November 11, 12, 13, from 6 - 9 pm with the final exercise on Sat, November 15, 10 am - 1 pm. All classes will be held at Los Gatos Council Chambers 110 E. Main Street, Los Gatos, CA, 95030. The registration fee is \$35 which will be reimbursed to Cupertino residents upon successful completion of the course. For questions or to register contact: info@sccfd.org or 1.408.378.4010.

Free Backyard Compost Class in Cupertino

A free backyard compost workshop is scheduled for Saturday October 4, 10 am - 12 pm at Cupertino's Quinlan Community Center, 10185 North Stelling Road. Register online with the County of Santa Clara Home Composting Program at www.reducewaste.org/classes. Cupertino residents may request a free backyard compost bin (limit 1 per household) after attending a class. Contact environmental@cupertino.org. For more tips about eco-friendly and drought-resistant gardening and landscaping designs, visit www.bayareaecogardening.org.

Environmental Recycling & Document Shredding Day Saturday, October 25

Gather up your old confidential documents, the items you've been meaning to donate, and that broken printer in your cupboard and head to Environmental Recycling and Document Shredding Day! It will be held on Saturday, October 25, 2014, 9 am - 1 pm in De Anza College's Parking Lot A. Accepted items are:

- Electronic waste (computers, monitors and printers)
- Universal waste (batteries, cell phones, CFLs and fluorescent tubes)
- Reusable furniture (not dirty, stained, or torn)
- Clothing

- Residential documents (for confidential onsite shredding; two box limit)

Please note: NO paint, toxic chemicals, or mattresses accepted.

For further information, contact Recology at 408.725.4020.

This event compliments the FREE e-waste drop off offered for Cupertino residents by Apple Computer (now at 1326 Kifer Road in Sunnyvale).

Recycling Carts are for Dry Recyclables

The City has been investigating liquid leaking from recycling trucks while they service residential recycling carts. Residents may not be aware that liquid contaminates the dry recycling stream and may be causing leakage onto Cupertino streets. Used cooking oil can be placed in a plastic container with a closed screw-top and placed next to the recycling cart, but not in it. Please make sure that all liquids are drained from bottles and cans before placing them in a recycling cart. This will prevent the leaking of fluid from the trucks onto our streets and will help with the efficiency of sorting our recyclables.

Extra Garbage This Week? Use Your Free On-Call Pick-Up

Cupertino households may select two free on-call days per year. Each on-call collection allows you to schedule pick up of one of the following:

- Garbage
- Construction and demolition debris
- Bulky goods
- Compostable materials, yard waste and clean wood waste

Contact Recology at 408.725.4020, Monday through Friday during regular business hours. Advance notice of 24 hours is requested. Unused on-call collection days are not transferable from one calendar year to the next. For more information, visit www.recologysouthbay.com.

Water Conservation Tips

The results are in and it looks like June 2014 was Earth's hottest June on record (Source: National Oceanic and Atmospheric Administration). Combined with news that El Niño is looking to be weaker and more moderate than expected, this means that water conservation must continue to be a way of life. Mandatory state water conservation regulation is also going into effect. Do your part! There are many ways of conserving water both inside and outside the home; here are a few tips for making your home more water efficient:

In the Kitchen/Laundry Room:

- Operate your clothes washer and dish washer with full loads only.
- Don't leave the water running if you hand wash dishes.
- Replace your clothes washer with a new high-efficiency clothes washer, the second highest water user indoors.

In the Bathroom:

- Fix toilet leaks.
- Shower instead of using the bath tub and take shorter showers.
- Replace your old toilet, the largest water user indoors. Consider replacing it with a new and improved high-efficiency toilet. These new models use 1.3 gallons per flush or less. Rebates for high efficiency toilets, high-efficiency clothes washers and landscaping are available from the Santa Clara Valley Water District. See www.valleywater.org
- Install low-flow showerheads. Replace older showerheads with new efficient models that use 2.0 gallons per minute or less.
- Turn off the tap while brushing your teeth or shaving.

In Your Yard:

Did you know that outdoor water consumption typically accounts for at least 50% of residential water use?

- Water your lawn only when necessary. Replace turf with drought tolerant plants.
- Set your irrigation schedule for the season and your local conditions.
- Plant drought tolerant species.
- Upgrade your irrigation hardware. Replace high flow sprinklers with drip irrigation (where appropriate). Santa Clara County residents may be eligible for rebates for irrigation hardware upgrades.
- Hydrozone: when planting, group plants together according to their water needs to avoid over-watering.
- Water during the cool part of the day, before dawn.
- Use mulch to cover non-turf areas.
- Install shut-off nozzles on all garden hoses.
- Sweep sidewalks and driveways. Hosing down pavement around your home can waste hundreds of gallons. A broom is the best tool for cleaning these areas.
- Don't water the pavement.
- Prevent water runoff on slopes.
- Check your irrigation system often for broken sprinkler heads and irrigation tubing.
- Don't let water run while washing the car.
- Use a pool cover.

FACT: The average household residence uses over 100,000 gallons of water (indoor and outdoor) in one year (Source: EPA). That's a lot of water! Do your part and help ensure our water supply for the future.
