TO: The Honorable Mayor and Members of the City Council
FROM: Amy Chan, Interim City Manager
SUBJECT: Items of Interest

Healthy Cities Award for Supporting Healthy Commutes

In 2016, the Santa Clara County Public Health Department launched the Healthy Cities Program to recognize cities for their efforts to adopt and implement policies aimed at improving wellness as well as chronic disease and injury prevention. This year, the City of Cupertino has been selected to receive an award from the Healthy Cities Program for supporting healthy commutes and encouraging City employees, residents, and workers to get out of their cars and use alternative and active forms of transportation. The Santa Clara County Public Health Department will be presenting the award at the Cupertino City Council meeting on December 4, 2018.

Cupertino's Small Business Saturday Celebration a Success

On the Saturday following Thanksgiving, the City hosted a successful Small Business Saturday Celebration at Main Street Cupertino's Town Square. Over 300 people attended throughout the day and enjoyed free family fun activities, including live music by The Big Dreamers, children's crafts, discounts and giveaways by local businesses to encourage shopping and dining locally. In partnership with the City's Environmental Programs and the County's Recycling and Waste Reduction Division, reusable metal straws and utensils were given to attendees (Photos attached below.)

Sandbag Service

With the arrival of the rainy season, Public Works will be providing sandbags to Cupertino residents through April 2019. Residents may pick up the sandbags at the Public Works Service Center located at 10555 Mary Avenue. Sandbags are pre-made and staged in two black plastic containers near the north driveway of the Service Center.

Sandbags are accessible 24-hours on a self-service basis, with a 15 bag limit per resident (Photos attached below)

Heavy Leaf Fall Season

The heavy leaf fall season is upon us. The City's sweeping contractor will monitor designated areas in Cupertino and provide extra sweeping as needed to remove the heavy buildup of leaves. A section of the parking lot at Creekside Park is being utilized as a collection point for the sweeping contractor to discard debris while saving on travel time to the usual disposal location at the service center. Public Works staff loads the debris into waste bins and Recology disposes of the collected debris. A list of designated heavy leaf fall streets flyer is attached.

Storm Drain Ballot Initiative

On August 21, 2018, Public Works received authority to proceed with a storm drain ballot initiative limited to survey only up to \$20,000. Upon receiving this authorization, requests for qualifications were received and three firms were considered. The top rated firm, SCI Consulting, was selected and an agreement was executed at the end of October for an amount not to exceed \$20,000. The selection of SCI was due to their 94% success rate with over 130 Proposition 218 compliant ballot measures to date. This is more than the number of new agency-wide Proposition 218 complaint ballot measures by all other consulting firms in the California, combined. It is also helpful that SCI is far along on similar ballot measure for the City of Los Altos. Los Altos is mailing out ballots in January 2019. Cupertino costs to complete the surveys is considerably lower than that paid by Los Altos due in part because of what has already been developed for Los Altos.

Preliminary storm water fees for single family residential (SFR) homes have been calculated by SCI for three cost recovery options. These options and preliminary fees are as follows (current fee is \$12 per year for each SFR and \$144 per acre per year for commercial properties):

	Description	Storm Water Fee per Year
Option 1	Storm drain operations plus environmental programs	\$50.65 for each SFR
Option 2	Storm drain operations plus environmental programs plus high priority capital improvement projects completed over 16 years	\$89.11 for each SFR

Option 3	Storm drain operations plus environmental programs plus high priority capital improvement projects completed over 16 years plus green infrastructure improvement	\$109.63 for each SFR
----------	------------------------------------------------------------------------------------------------------------------------------------------------------------------	-----------------------

Attachment A (attached below) includes the preliminary storm water fees for various land uses including SFR.

Later this week, approximately 8,000 surveys will be mailed to Cupertino parcel owners. Residents and businesses that receive a survey will also receive an informational insert as well as the option to either return the survey in a pre-addressed postage paid envelope or to respond electronically. All three options (\$50.65, \$89.11, and \$109.63) will be surveyed for SFR as well as various commercial parcels. A sufficient number of surveys are expected to be returned by the end of this December with preliminary results to staff by January 4, 2019. The results of the surveys, including a recommendation to proceed with either options 1, 2, or 3 is scheduled for Council consideration on January 15, 2019.

Attachment B (attached below) includes the informational insert and the three SFR surveys. Attachment C (attached below) shows what the possible schedule would be if Council directs a ballot process to raise storm water fees. The goal to have increased fees on the tax roll by next FY.

Staff presented the preliminary SFR storm water fees to the Economic Development and to the Sustainability Commission on November 14 and 15, respectively.

Upcoming Agenda Items

Attached is the City Council agenda forecast through March 19, 2019.

Law Enforcement

Attached is the Sheriff's weekly report for November 19 - 25, 2018.

Upcoming Events or Meetings:

Date	Event	Time	Location
November 30, 2018	Holiday Tree Lighting	6:00 p.m.	Quinlan Community Center
December 1, 2018	Breakfast with Santa	8:30 a.m., 9 a.m., 9:30 a.m., 10 a.m.	Quinlan Community Center

11/29/2018

CITY OF CUPERTINO OFFICIAL SURVEY

Clean Water and Storm Drainage Infrastructure

Information Fact Sheet

Why Am I Receiving This Survey?

Everyone in Cupertino is dependent on our local storm drainage system to keep our streets, homes, and property safe from local flooding, primarily due to seasonal rain storms. However, portions of the system lack the capacity necessary to meet the City’s 10 year storm standard. This critical infrastructure system is aging and in need of improvements, replacement, repair, and maintenance. It is crucial that our local storm drainage system be effective and well-maintained for our safety, to keep our streets dry and safely navigable, and to protect our property. This system must also effectively ensure trash and other harmful pollutants are removed from storm water runoff before it flows into our local creeks (Calabazas, Regnart, Saratoga, and Stevens), the Junipero Serra Channel, and the San Francisco Bay.

The City of Cupertino recently completed a comprehensive Storm Drain Master Plan (led by Schaaf and Wheeler Civil Engineers) which determined the appropriate service levels for operations and maintenance for the City’s storm drainage system, and it identified several high priority system deficiencies, including undersized pipes. As a result, the City of Cupertino is considering proposing a funding measure to help pay for these critical infrastructure needs, and seeks input from local property owners on your priorities for local flood protection and clean water projects. Please read the following information, then complete the enclosed survey and mail it back in the postage paid envelope as soon as possible. Your answers will help guide our efforts toward protecting the City and its residents from local flooding and protecting water quality.

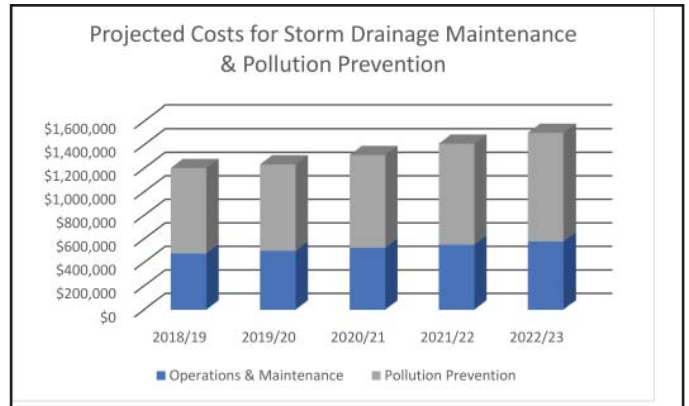

Flooded streets make it hard for cars, pedestrians, bikes, and emergency vehicles to navigate.

Clean Water in Cupertino

The safety and quality of life of our residents, wildlife, and environment are our top priorities. One of the best ways to achieve this is by ensuring safe, clean, healthy water in our community and natural habitats. Trash, such as plastics, cigarette butts, and other non-biodegradable products, gets swept into drainage systems with storm water runoff and drains directly into local creeks and the Bay. Chemical and bacterial contaminants such as fertilizer, pesticides, and animal waste are also spread through, and pollute, this untreated runoff. The City of Cupertino continues to install trash-capture devices that will minimize trash flowing through our storm drainage system and enhance the quality of our local waterways.

Investing in Local Infrastructure

Based upon the analysis in the City’s most recent budget information, City engineers and field staff expend over one million dollars annually on storm drainage operations and maintenance and clean water protection to comply with strict Federal standards, namely, National Pollutant Discharge Elimination System (“NPDES”) requirements. The Master Plan describes \$12.52 million in high priority capital improvements, which the City plans to address over the next several years.

One funding strategy being considered, as shown above, includes funding of annual operations and maintenance, as well as pollution prevention needed to meet Federal clean water mandates.

Preventing Local Flooding

The City owns, maintains and operates over 4,300 manholes, catch basins, and outfalls, as well as 100 linear miles of pipes. Rainwater flows from buildings, parking lots, sidewalks, and other impervious surfaces onto our City streets and into these catch basins, through these pipes, and eventually into our creeks and the Bay. Various factors, such as clogged catch basins or pipes that do not adequately convey standard rainwater flow, cause flooding in various areas throughout the City, making it difficult for pedestrians, bicycles, motorcycles, cars, and emergency vehicles to navigate.

Wet Weather Flood Prevention

When a storm is forecast, a team of City engineers and maintenance staff proactively clean drains and perform other preventative maintenance before the rain starts. Once the storm arrives, this team patrols known problem areas, making sure inlets and catch basins are clear, and taking other action as necessary to prevent flooding. They also respond to calls from the public as needed.

City workers prevent flooding by cleaning leaves and other debris from catch basins before the rain starts.

CITY OF CUPERTINO OFFICIAL SURVEY

Clean Water and Storm Drainage Infrastructure

Information Fact Sheet

Protecting Our Local Neighborhoods

In order to ensure protection from damaging flooding in Cupertino, the City has given the following critical projects and programs priority to meet current needs:

- Maintain and rehabilitate pipes, catch basins and drain inlets to reduce the risk of local flooding
- Improve watershed planning activities including plans for creek restoration projects and floodplain management activities
- Protect our creeks and the Bay from trash by installing and maintaining trash capture devices to clear debris from the water before it enters local waterways
- Construct sustainable green infrastructure such as rain gardens to capture and treat polluted water from streets and parking lots

System Deficiencies To Be Addressed

City engineers and maintenance crews have effectively maintained our storm drainage system on a limited budget for many years. However, much of the system is now over 50 years old, and reaching the end of its design life. The areas where improvements need to be made to the storm drainage system include segments of Bubb Road, South Foothill Boulevard, McClellan Road, South Blaney Avenue, and certain areas in Cupertino neighborhoods. 13 high priority projects are aimed at reducing flooding throughout the City.

Long-Term Financial Sustainability

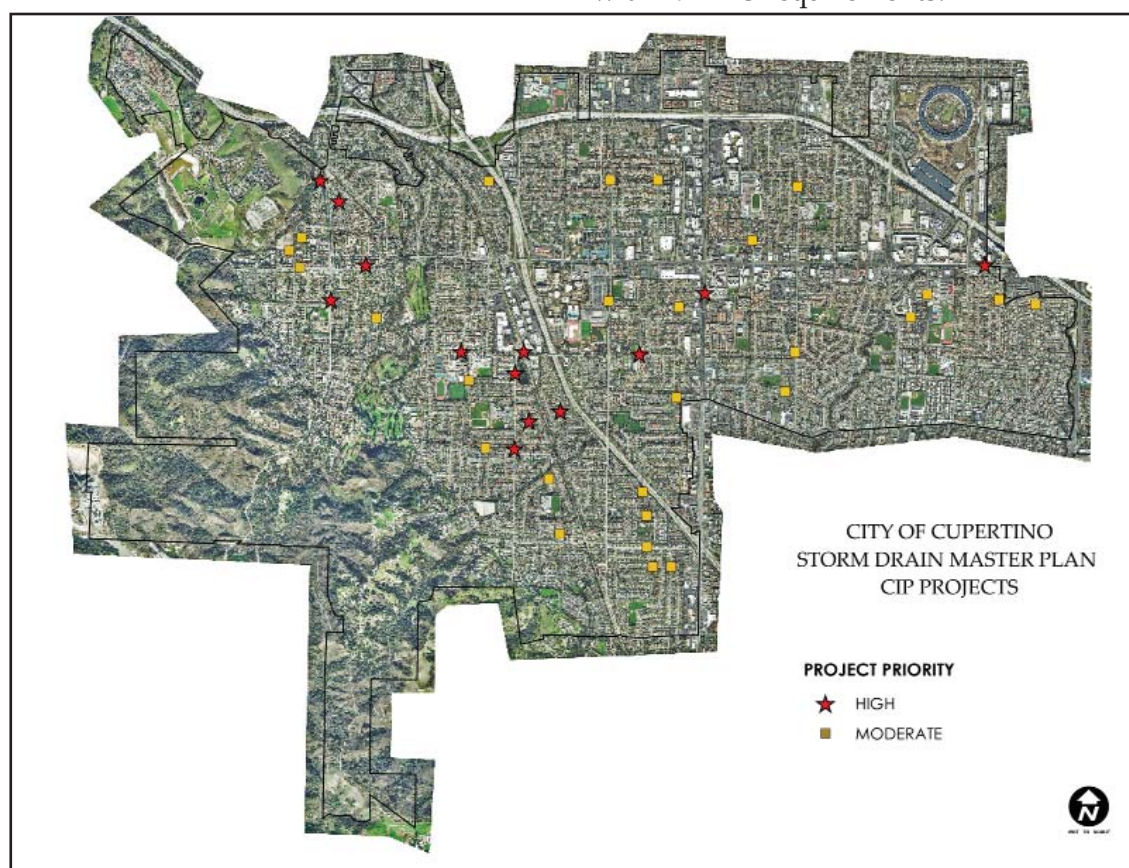

Single family home owners currently pay a fee of \$12 per year for storm drain services. Although costs have continued to rise every year, the existing fee has not been increased since it was implemented in 1992. As a result, it does not provide sufficient funding to maintain the storm drain system, let alone to meet increased Federal clean water mandates or to replace aging infrastructure. The proposed new fee would be in addition to the existing fee, and would guarantee long-term, sustainable funding for clean water and storm drainage, protected from near-term political cycles and financial challenges to the City's general fund.

Clean Water Services

While ensuring the City's storm drainage system keeps our streets and properties safe and dry, Cupertino city staff also coordinate creek clean-ups; review new development projects to ensure they adhere to water quality standards; respond to local flooding; make emergency repairs; and inspect commercial facilities to prevent water pollution. In order to educate the next generation about the importance of keeping creeks healthy, City staff teach a unique curriculum to third graders in Cupertino right on the banks of Stevens Creek as it flows through McClellan Ranch Preserve.

Strict State & Federal Water Standards

The National Pollutant Discharge Elimination System (NPDES) Permit Program controls water pollution by regulating sources which discharge pollutants into our creeks and the Bay. As an NPDES permit holder, the City of Cupertino can be charged fines if it violates the terms of its permit. Funds from this measure will help to ensure the water that flows into our creeks and the Bay is clean, and will help keep the City in compliance with NPDES requirements.

The map above shows the locations of the high priority storm drain system capital improvement projects identified in the recent Storm Drain Master Plan, marked with red stars.

CITY OF CUPERTINO OFFICIAL SURVEY

Clean Water and Storm Drainage

This survey has been mailed to property owners in the City of Cupertino to gather important information and opinions. Please fill out and return this survey as soon as possible.

Survey Instructions:

- 1) Read each question listed below.
- 2) Fill in the circle for your response. Please use a pen and completely fill in the circle.
- 3) Detach the bottom portion of this sheet containing your answers.
- 4) Place the bottom portion of this sheet in the return envelope and mail (no postage needed).

Cupertino - 1

To complete this survey online please visit www.inputlocal.com.
To log in, enter your SURVEY NAME: CUPERTINO1 and your SURVEY CODE: _____.

Property owners in your area may be asked to vote on a local ballot measure. Following is a summary of the proposal:

In order to protect our streets and properties from local flooding, and ensure clean water in our creeks and the Bay by:

- Maintaining, cleaning, repairing, rehabilitating and operating our storm drainage infrastructure;
- Protecting water quality by meeting Federal standards to clean water runoff before it flows into our creeks and the Bay; and
- Establishing a dedicated storm drainage rate structure, similar to sewer and water rates, that reliably funds these goals;

Cupertino - 1

would you support an annual fee on your property(s)* in the amount of \$50.65 on your property tax bill?

Definitely YES **Probably YES** **Probably NO** **Definitely NO**

*Fee amount is the proposed total combined annual amount for all properties you own in the City.

Now, please read the following statements regarding the proposed Clean Water and Storm Drainage ballot measure. For each one, please indicate whether they make you more or less likely to support the fee:

	Much More Likely	Somewhat More Likely	No Impact	Somewhat Less Likely	Much Less Likely
1. This measure would help protect the City of Cupertino from local flooding by properly maintaining and operating its aging storm drainage infrastructure.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
2. This measure would ensure safe, clean, healthy water in the creeks flowing through Cupertino and to the Bay, now and for future generations.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
3. This measure would decrease flooding on local properties after rainstorms to protect homes and landscaping, businesses, schools and other types of properties.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
4. When a storm is forecast, a team of City maintenance staff proactively cleans drains & performs other preventative maintenance before the rain even starts....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
5. The Federal government has established strict water quality standards through its National Pollutant Discharge Elimination system program. The City should meet or exceed these standards.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
6. Our storm drainage system diverts some rain water to re-charge the ground water basins beneath our City, so the water can be accessed during a drought....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
7. The City owns and operates over 4,300 manholes, catch basins, and outfalls, and over 100 linear miles of pipe, much of it more than 50 years old. This aging infrastructure must be properly maintained.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
8. The funds from this measure cannot be taken by the State or County, and cannot be used by the City for anything other than for improvements and maintenance of the City's storm drain system.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
9. The City should continue to coordinate creek clean-ups, interactive presentations at events, and conduct the 3rd grade creek education field trips to make sure everyone participates in, and understands, our local water issues.....	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Please use the space below to write any reasons why you support or oppose this proposed measure. Also, please describe which issues are most important to you:

Weekly Activity Summary
11/19/2018 – 11/25/2018
CUPERTINO

PATROL ACTIVITY SUMMARY

DATE	BEAT	ACTIVITY	COMMENTS
11/19	C1	Theft by False Pretenses	Between 10/8 and 10/22, the victim posted a vehicle for sale online and was contacted by unknown suspect(s) claiming to be interested in purchasing the car. The suspect(s) were to send \$1,000 as a security deposit for the car, but instead sent a fraudulent check for \$3,000 as an alleged mistake. The suspect(s) then instructed the victim to return the \$2,000 overage via cashier's check, to which the victim complied. The victim lives in Cupertino.
11/19	C4	Stolen Vehicle	Between 5:00 PM on 11/18 and 8:00 AM on 11/19, unknown suspect(s) stole a vehicle parked in the 20000 block of Via San Marino. The vehicle had an unknown value.
11/19	C3	Commercial Burglary	At 8:35 PM on 11/18, two suspect(s) entered Target on Stevens Creek Boulevard at Saich Way, had a cashier load gift cards with over \$1,000, and took the gift cards along with other store merchandise without paying for an unknown total loss. The suspect(s) are unknown and at large.
11/19	C4	Possession of a Controlled Substance for Sales, Felon in Possession of Ammunition ARREST	At 1:09 AM, deputies stopped a motorist at N. De Anza Boulevard and Interstate 280 for a traffic violation. An investigation revealed the suspect driver was in possession of Cocaine for sales and was a convicted felon in possession of ammunition. Further investigation revealed the suspect had an outstanding warrant. The suspect was arrested and booked into Main Jail.
11/19	C9	Non-Injury Collision	Occurred at 7:44 AM at Finch Avenue and Craft Drive.
11/19	C3	Knife and Smoking on School Grounds, Public Intoxication ARREST	At 7:59 AM, deputies responded to a trespassing call at Homestead High School on Homestead Road. An investigation revealed the suspect was on campus, refusing to leave, and was in possession of a knife while smoking Marijuana. The suspect was admonished for trespassing, arrested and booked into Main Jail.
11/19	C9	Grand Theft	Between 11:00 AM and 11:25 AM, an unknown suspect entered the Varouj Watch Repair on E. Estates Drive to have jewelry cleaned, and while the jewelry was being cleaned, the suspect took 10 rings for a total loss of about \$6,900.
11/19	C1	Vehicle Burglary, Attempted Theft by Credit Card	Between 2:30 PM and 4:20 PM, unknown suspect(s) entered a vehicle parked at Rancho San Antonio Open Space Preserve on Cristo Rey Drive by breaking the driver's door lock. The suspect(s) took cash, credit cards and a driver's license. The suspect(s) attempted to use the credit cards, but were unsuccessful, for an unknown total loss.
11/19	C8	Non-Injury Collision	Occurred at 2:53 PM at Bandlely Drive and Stevens Creek Boulevard.
11/19	C1	Non-Injury Collision	Occurred at 4:06 PM at Stevens Creek and Peninsula Boulevards.
11/19	C9	Vehicle Burglary	Between 6:30 PM and 8:15 PM, unknown suspect(s) broke through a window of a vehicle parked near the Galpao Gaucho Brazilian Steakhouse restaurant in the Marketplace shopping center on Stevens Creek Boulevard and took a backpack containing clothing and a laptop for a total loss of about \$1,560.

PATROL ACTIVITY SUMMARY

DATE	BEAT	ACTIVITY	COMMENTS
11/20	C4	Vandalism	Between 10:10 AM on 11/19 and 9:00 AM on 11/20, unknown suspect(s) broke a window at 212 New York Pizza on E. Homestead Road. The total amount of damage was about \$1,000.
11/20	C8	Commercial Burglary	Between 10:30 PM on 11/19 and 7:45 AM on 11/20, unknown suspect(s) entered the Rio Adobe Southwest Café on S. De Anza Boulevard by breaking a glass door and took cash for a total loss of about \$661.
11/20	C9	Vandalism	Between 10:36 PM on 11/19 and 4:00 AM on 11/20, unknown suspect(s) threw a rock through a window at Bank of America on Stevens Creek Boulevard. The total amount of damage was about \$2,000.
11/20	C8	DUI ARREST	At 1:38 AM, deputies observed a motorist at McClellan Road and S. De Anza Boulevard commit a red light violation and subsequently stopped the motorist. An investigation resulted in the arrest of the suspect driver for driving under the influence of alcohol. The suspect was booked into Main Jail.
11/20	C5	Vandalism	Between 1:40 AM and 1:45 AM, unknown suspect(s) threw a rock through a window at VJs Salon on Stevens Creek Boulevard. The total amount of damage was about \$400.
11/20	C7	Residential Burglary	Between 9:15 AM and 11:05 AM, unknown suspect(s) entered a residence in the 20000 block of McClellan Road by breaking a rear sliding glass door and took jewelry for a total loss of about \$380.
11/20	C7	Possession of Controlled Substance and Marijuana on School Grounds ARREST	At 1:30 PM, deputies responded to a call from school officials at Monta Vista High School on McClellan Road who had a student detained for being in possession of a CNS stimulant pill and Marijuana. The suspect was cited and released.
11/20	C3	Injury Hit and Run Collision	Occurred at 7:11 PM at N. De Anza Boulevard and Alves Drive.
11/20	C3	Felon in Possession of Tear Gas ARREST	At 8:59 PM, deputies responded to a shoplifting call at Safeway on Homestead Road where employees stopped the suspect in the act. The suspect was detained in the parking lot, leaving the scene, and an investigation revealed the suspect was a convicted felon in possession of tear gas, in violation of the suspect's parole terms. The suspect was arrested and booked into Main Jail.
11/20	C3	Possession of Drug Paraphernalia ARREST	At 9:29 PM, deputies made contact with the occupant of a suspicious vehicle in the parking lot of the Cupertino Hotel on N. De Anza Boulevard. An investigation revealed the suspect was in possession of drug paraphernalia. The suspect was cited and released.
11/21	C1	Residential Burglary	Between 8:00 PM on 11/17 and 10:00 AM on 11/21, unknown suspect(s) entered a residence in the 10000 block of Madera Drive by forcing two doors open. It is unknown if anything was taken from the residence.
11/21	C7	Attempted Vehicle Burglary	Between 2:30 PM on 11/20 and 7:45 AM on 11/21, unknown suspect(s) attempted to enter a work trailer left overnight at a residential construction site in the 21000 block of Columbus Avenue by prying at the doors. The suspect(s) did not gain entry but caused damage to the doors. The total amount of damage was about \$200.
11/21	C7	Commercial Burglary	At 3:17 AM, unknown suspect(s) entered Cupertino Phone Repair on Stevens Creek Boulevard by using a rock to break open a door and took cash, cellular phones and an electronic tablet for an unknown total loss.

PATROL ACTIVITY SUMMARY

DATE	BEAT	ACTIVITY	COMMENTS
