Give the Gift of Warmth this Holiday Season

The City of Cupertino, in cooperation with Recology, is hosting its annual Coat Drive this holiday season. Community members can drop off new or gently used coats between now and the end of December at Cupertino City Hall, 10300 Torre Avenue.

Donated items will be given to Sacred Heart Community Services, which will distribute them to those in need this holiday season.

Second Coffee Talks Event a Success

Thanks to the residents who attended this month's Coffee Talks Series at La Terra Bakery and Café! There were some great conversations among the guests and City manager Deb Feng and Vice Mayor Liang Chao. Topics included Apple's \$2.5 billion commitment to the housing crisis, the Oaks, affordable housing, and more.

We hope to see you at the next event, scheduled for Friday, December 13, from 8:30 to 9:30 a.m. at Panera Bread, 20807 Stevens Creek Boulevard.

Alpha Betas Meet with City Manager Deb Feng

The Alpha Betas, a local team of middle school students participating in the First Lego League international competition, met with City Manager Deb Feng on Wednesday, October 30 to give a presentation of their proposed solution for how people with disabilities might evacuate their home in the event of an emergency or natural disaster.

Disabled people have more trouble getting down to the ground floor since they can't use elevators and stairs. Alpha Betas' mission is to create a way of getting to the ground floor without getting trapped so people with disabilities don't have to wait for first responders to arrive, which could take an extensive amount of time and could result in injuries. In order to help those who are disabled, Alpha Betas' proposed solution is to enhance stairs with a mechanism made up of separate stair units that rotate to turn into a ramp. A disabled individual can push a button/lever that will send a Bluetooth signal to each stair unit, allowing them to turn, making a ramp. Rubber grips on the staircase will ensure that wheelchairs and people do not slip while going down. The Stairs to Ramps will greatly impact the safety of the disabled during an emergency.

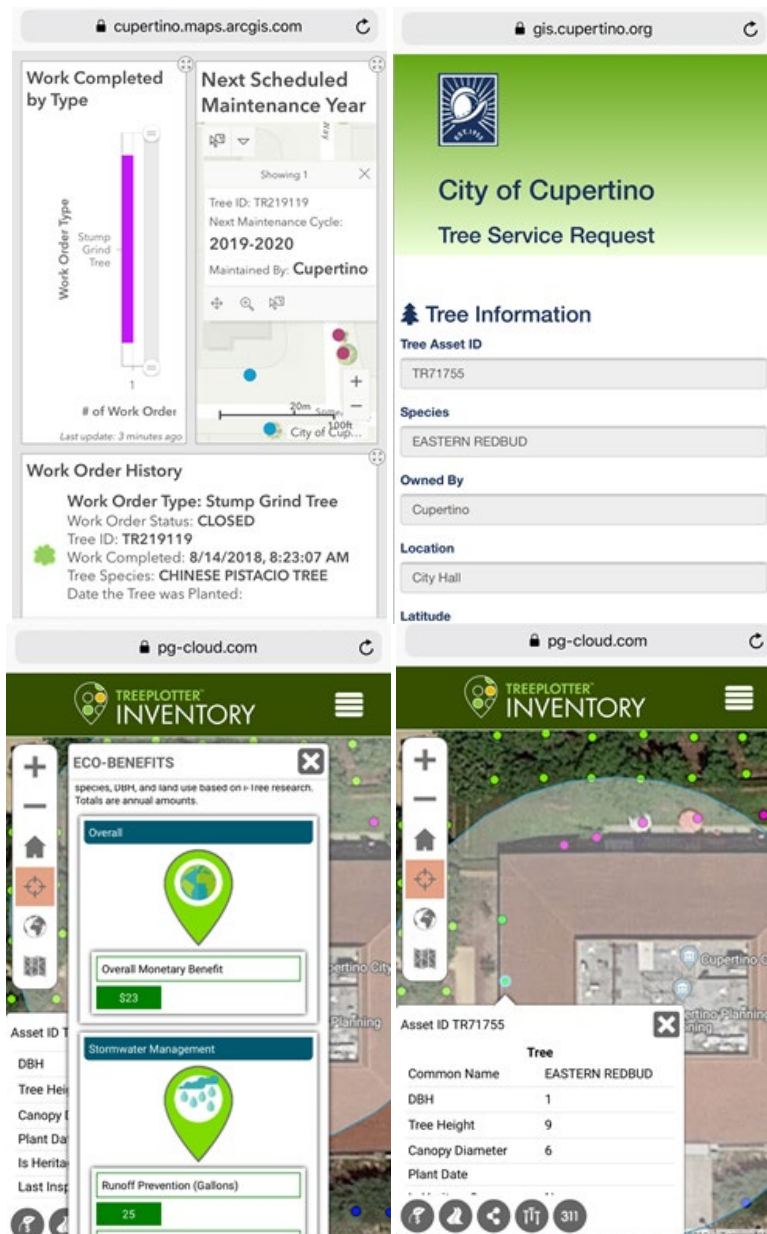

Cupertino Tree Analytics

Residents can now visit the new Tree Plotter application to view the benefits of individual City trees or the entire City-wide canopy. The app includes a tree's overall monetary benefit, property value, runoff prevention, energy and natural gas savings, heat prevention, and air quality benefits among other factors. Residents can also check when a tree was planted, when it was last pruned, and its maintenance history.

The app was a partnership between the City's GIS (Geography Information System) Division and Trees Division; a perfect marriage between technology and nature. The Trees Division is responsible for maintaining 20,654 City trees, including pruning, pest control, and planting.

Visit the Tree Plotter app at cupertino.org/trees.

Cupertino Receives High Marks Under CDP's Global Climate Action Scorecard

Cupertino’s Sustainability Division is proud to announce that the City has been given high marks for climate action and information disclosure in the 2018 CDP (formerly Carbon Disclosure Project) report. The City reached an overall score of “B” which places Cupertino well above the average of all participating cities. This score means that Cupertino has understood the main risks and impacts of climate change and is taking action to adapt to and reduce these effects.

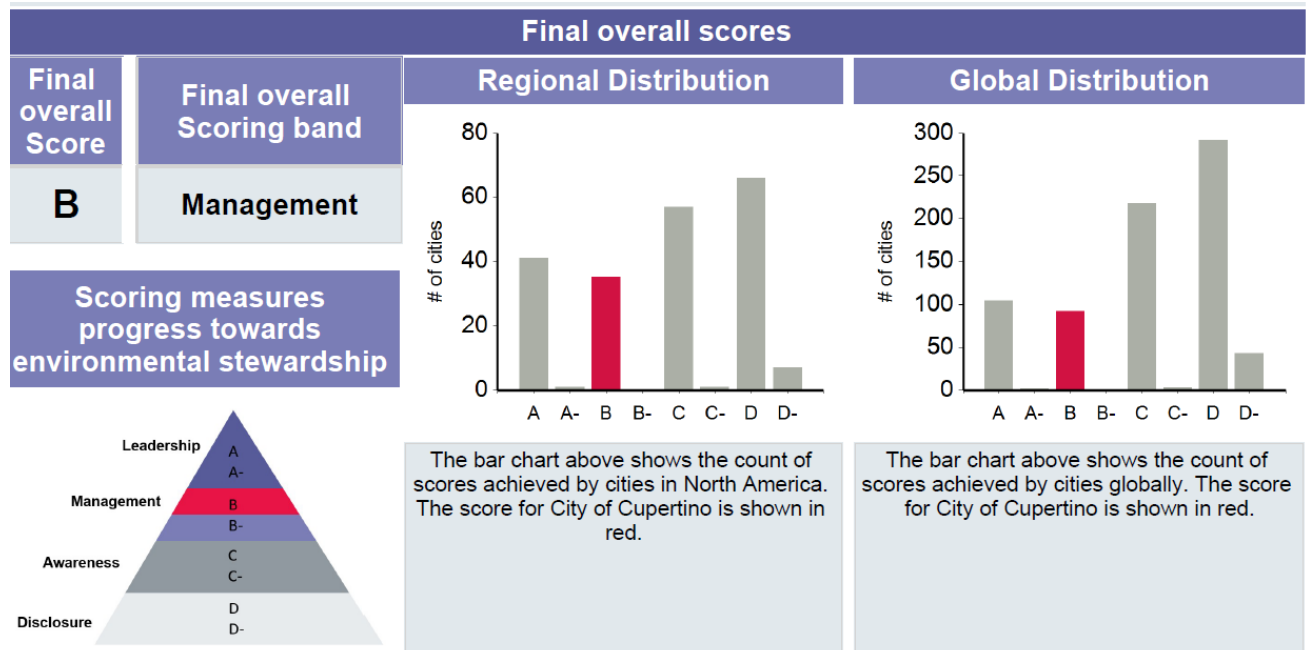

CDP provides the global platform for cities to measure, manage, and disclose their environmental data. CDP works with over 620 leading-edge cities measuring and disclosing environmental data each year to manage emissions, build resilience, protect themselves from climate impacts, and create better places for people to live and work. These cities are disclosing over 8,000 urban sustainability actions, demonstrating their commitment to building a sustainable economy, and tackling climate change. We are nearing a tipping point in mainstreaming environmental action, and cities are at the heart of this transition.

City staff will be using guidance from CDP to inform the next update to our Climate Action Plan, specifically to address topics of resilience and adaptation to a changing climate.

For more information, visit Cupertino.org/green.

To see how Cupertino compares to other cities, check out [Cities Analytics from CDP](#).

Explore all public information by accessing the [CDP Open Data Portal](#).

Cupertino's Carbon Emissions Reduction Target for 2020 Achieved

The Climate Action Plan 2018 Progress Report is an overview of how Cupertino is meeting its 2020 greenhouse gas emissions reduction goals through City-led action as well as regional and state policies. Cupertino's target is to reduce community emissions by 15% below 2010 levels by 2020, with further reductions in 2035 and 2050. Community-wide emissions in 2018 were estimated at 24% below 2010 levels, achieving our 2020 goal ahead of schedule. The attached Climate Action Plan Progress Report provides an overview of our emissions reduction progress in 2018 and updates on our water, energy, transportation, natural resources, and waste related goals in the CAP.

City Compost Site Annual Closure

The City's annual compost give-away program ended the 2019 season on Saturday, October 26. The program is managed by the Public Works Environmental Programs Division and operates each Friday and Saturday morning between March and October. In 2019, a total of 1,502 Cupertino residents collected 680 cubic yards of compost (17 semi-truck loads) to use to amend their garden soil. The compost is produced from residential yard waste, food scraps, and food soiled paper. These materials are collected weekly in residential green or brown organics carts by Recology and transported to a certified organic compost processing facility in Gilroy. Approximately four months later the food scraps have a new life as high-grade compost, some of which is returned to the City for our residents to use. Placing food scraps and food-soiled paper in the organics cart reduces waste to going to landfill, and applying the resulting compost to soil sequesters carbon, which reduces the emission of greenhouse gases. The compost give-away program provides a tangible illustration of the multiple benefits of the closed loop recycling of yard and food waste in the community. The site is scheduled to open again in March 2020 and staff will conduct community outreach in advance.

Complimentary Communication Regarding our Public Works Environmental Compliance Technician Manny Barragan

Manny Barragan is a dedicated employee in the Public Works Department with over 47 years of service to the City. Manny is the City's stormwater pollution prevention investigator, which entails engaging and educating the community about stormwater pollution prevention best practices. His work is vital in keeping our creeks clean and healthy, preserving both the aesthetic and ecological value of this important community resource. Manny is equally generous to the community and other City staff by sharing his historical knowledge of the City and its unseen infrastructure, such as storm drains and other underground utilities. The letter attached is only one of many positive examples of Manny's interactions with our community.

Hidden Treasures 2019 a Huge Success

On October 24, 2019, the Cupertino Senior Center hosted its annual Hidden Treasures event. This year, over \$15,000 worth of donated items were sold to community members through the 24th and the Bag Sale the following day. Proceeds from this event go to support the Case Management program and the Stay Active Fund which help pay for Senior Center membership and programs for Cupertino seniors. In addition to the monetary benefit of Hidden Treasures, the months of sorting, pricing, and preparation for the day of the sale provided seniors in the community an opportunity to give back. Over 50 seniors volunteered more than 1,000 hours over the past few months, helping to make this event a huge success. This truly is a “seniors helping seniors” event and was enjoyed by volunteers and customers alike.

Natural Fiber Day

Volunteers from Glenna Harris Weavers Guild, Serendipity Spinners, Spindles & Flyers, and Rolling Hills 4H Club shared their skills or their fiber-producing animals at McClellan Ranch Preserve’s Natural Fiber Day. Kids and adults learned to make cordage, wash and card sheep fleece, spin with a drop spindle, and make their own knitting needles. About 150 attended this event.

The Great Bellows

The great bellows has been restored and reinstalled into the Baer Blacksmith Shop at McClellan Ranch Preserve. The bellows were used in the original shop built by William Baer around 1887 near the present intersection of Stevens Creek Blvd and De Anza. Over the years the bellows leather had become stiff and damaged. Come check out this bit of Cupertino's early history at one of the free monthly blacksmithing demonstrations. The next one is scheduled for Sunday, November 24, 11:00 a.m. - 3:00 p.m. These events are postponed if a Spare the Air or Red Flag Warning notice has been issued.

Upcoming Agenda Items

Attached is the City Council agenda forecast through January 7, 2019.

Law Enforcement

Attached is the Sheriff's weekly report for October 21 – November 10.

Upcoming Events or Meetings:

Date	Event	Time	Location
November 14, 2019	Cultures of the World - Mexico	3:30 p.m. – 5 p.m.	Quinlan Community Center – 10185 N. Stelling Rd
November 16, 2019	Home Composting Workshop	10 a.m. – 12 p.m.	McClellan Ranch Preserve – 22221 McClellan Rd

**CITY OF
CUPERTINO**

CLIMATE ACTION PLAN

2018 Progress Report

Climate Action Plan

2018 Progress Report

The City of Cupertino's Climate Action Plan defines Cupertino's path toward creating a healthy, livable, and vibrant place for its current and future residents to live, learn, work, and play. The CAP's primary goal is to create a roadmap to reduce greenhouse gas emissions in Cupertino. This 2018 Progress Report is an overview of how Cupertino is meeting its 2020 greenhouse gas emissions reduction goals through City-led action as well as regional and state policies.

Cupertino Among the First Bay Area Cities to Declare Climate Emergency

City of Cupertino passed Resolution No. 18-094 on September 18, 2018, declaring a climate emergency and calling on the State of California, the United States, and all governments worldwide to initiate an emergency mobilization effort to mitigate climate change, stop rising greenhouse gas emissions, and immediately initiate an effort to safely draw down carbon from the atmosphere.

“I am really glad that we are declaring a climate emergency...this is extremely critically important for not just our community but for the planet and it is something that I'm very glad to be able to bring forward to the community...”

- Councilmember Darcy Paul

(Commenting as Mayor in 2018 at time of resolution adoption)

CAP Overview

- Goal areas: energy, transportation, water, waste, green infrastructure
- Over 225 municipal and community-wide measures
- Target emissions reduction years: 2020, 2035, and 2050
- 2010 baseline emissions inventory

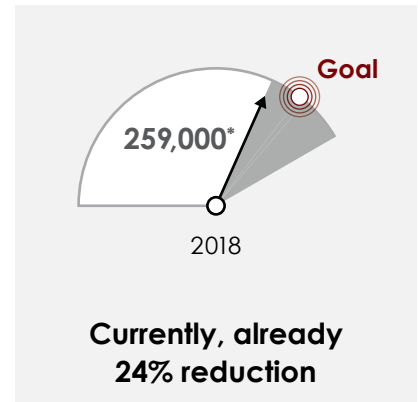

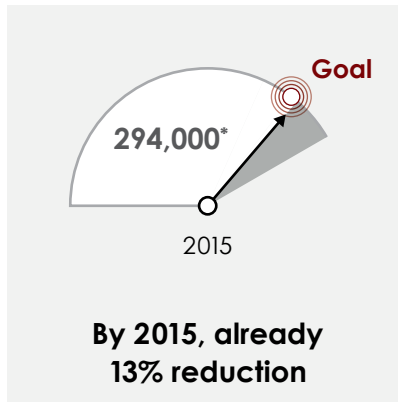

Climate Action Commitments and Resolutions

- Diesel Free by 2033 (August 2018)
- Climate Emergency Declaration (September 2018)
- U.S. Conference of Mayors Climate Protection Agreement
- Global Covenant of Mayors for Climate and Energy
- Bay Area Climate Collaborative / Bay Area Climate Compact

Emissions Target for 2020 Achieved

2018 Emissions 24% Below 2010 Levels

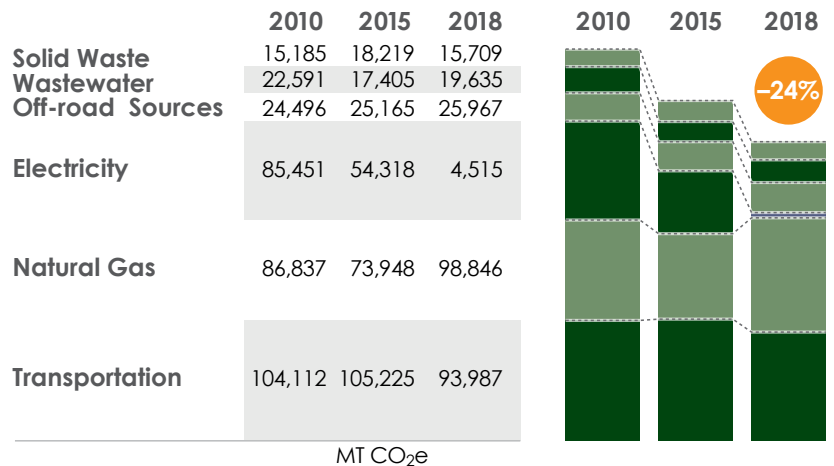

Cupertino completed its first greenhouse gas (GHG) emissions inventory for the year 2010. Cupertino's target is to reduce community emissions by 15% below 2010 levels by 2020, with further reductions in 2035 and 2050. Community-wide emissions in 2018 were estimated at 24% below 2010 levels, achieving our 2020 goal ahead of schedule.

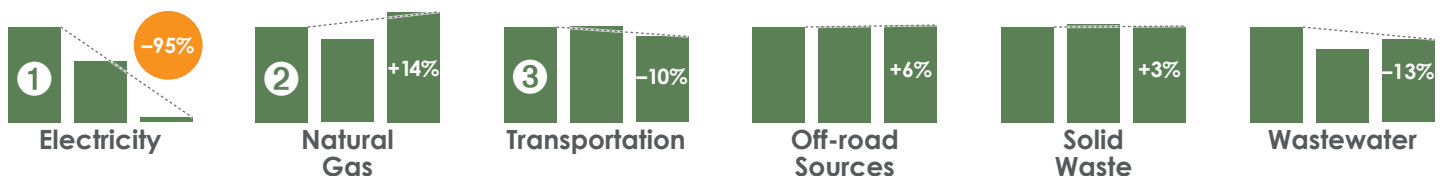

* emissions rounded to nearest 1,000 metric tons CO₂e emission per year

Goal Surpassed Despite More People and Jobs

Of all the 200+ measures in our CAP, the most significant action the City has taken to reduce emissions was the launch of Silicon Valley Clean Energy, our clean electricity provider (see 1 below). The switch to carbon-free electricity for our community opens opportunities for deeper emissions reduction as residents, businesses, and City operations switch to electric vehicles and electric appliances.

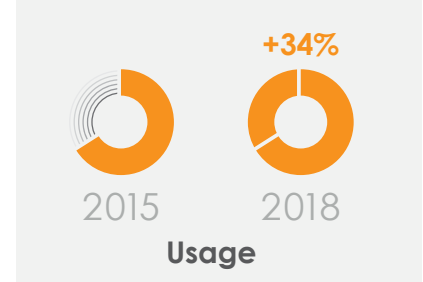

Community emissions are driven by both residential and commercial activity occurring within Cupertino, and some changes in our community increased emissions: since 2010, Cupertino has experienced an estimated 6% increase in population, 18% increase in jobs, and a 10% increase in service population. Natural gas usage increased by 14% since 2010 (see 2 below). However, due to City's climate actions as well as other systemic changes, we saw an overall 24% decrease in emissions. Transportation showed a 10% decrease in emissions (2018 vs. 2010), despite an 8% increase in vehicle miles traveled (see 3 below).

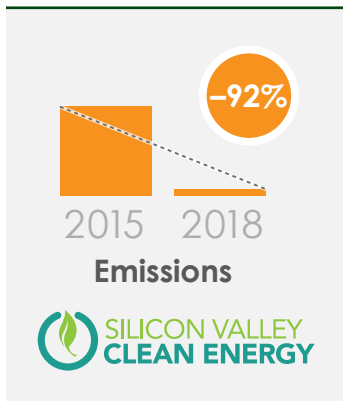

Energy Efficiency and Clean Electricity

Natural Gas

Natural gas usage increased by 34% from 2015 to 2018 and is now the largest source of emissions in Cupertino. Natural gas furnaces, stoves, and water heaters create pollution inside homes and businesses. Gas pipelines leak methane, a potent greenhouse gas and fire risk. Residents and businesses can reduce emissions from natural gas by choosing electric appliances and increasing the energy efficiency in homes and buildings.

Clean Electricity

- 96.6%** of residential and commercial electricity accounts in Cupertino used Silicon Valley Clean Energy's clean electricity in 2018
- \$946,000** in on-bill savings for SVCE customers in Cupertino
- \$12,491** in cash payments to customers for generating extra solar energy
- 22,609** households and businesses served
- 100%** renewable energy for all municipal facilities

Green Businesses

Since 2010, our award-winning GreenBiz program has helped 60 businesses achieve California Green Business certification, saving over 7,600 metric tons of carbon dioxide and diverting over 22 million pounds of waste cumulatively.

Solar Energy

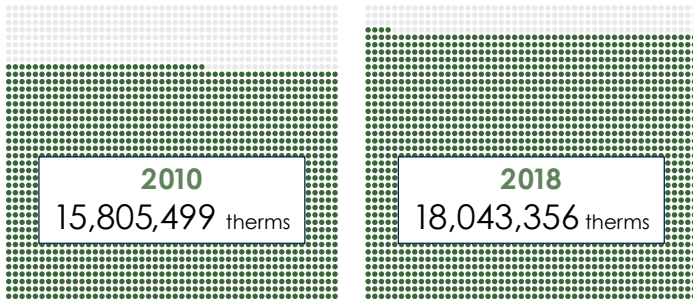

- 755 kW** of solar capacity installed in homes & businesses (not including Apple Park) in 2018 (est.)
- 4 MW** installed since 2015 (est.), exceeding CAP goal of 1.5 MW by 2020 (goal does not include Apple Park)
- 17 MW** of solar capacity installed at Apple Park

Energy Efficiency and Clean Electricity

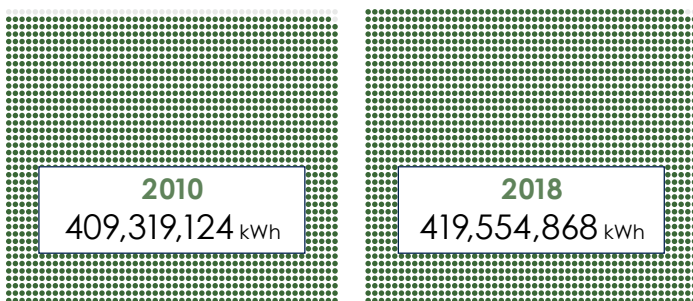

Community

Natural Gas Usage +14%

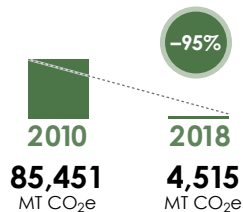

Non-residential natural gas usage increased 54% since 2010 and was the primary driver of the community's increase in natural gas usage overall.

Electricity Usage +3%

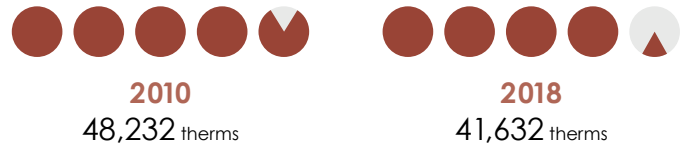

Electricity Emissions Reduction

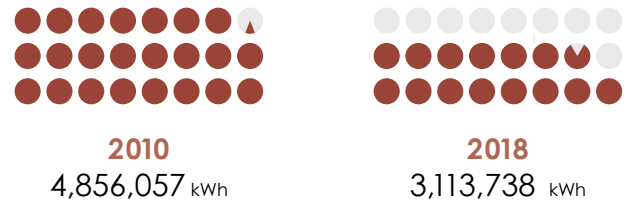

3% increase in usage from 2010 to 2018 (but a 95% decrease in electricity emissions)

Municipal

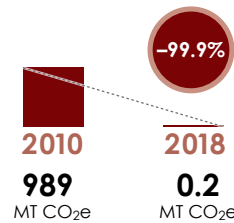

Natural Gas Usage -14%

Electricity Usage -36%

Electricity Emissions Reduction

36% decrease in usage from 2010 to 2018 (and a 99.9% decrease in electricity emissions)

2018 Energy Efficiency Project Spotlight: Municipal LED Light Upgrade

47,673 kWh saved

\$10,500 less cost

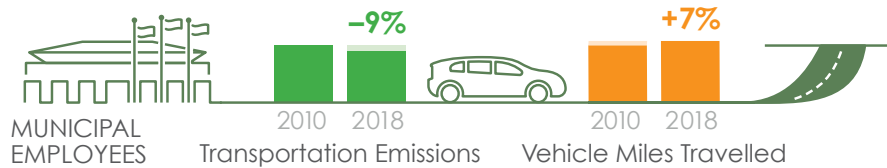

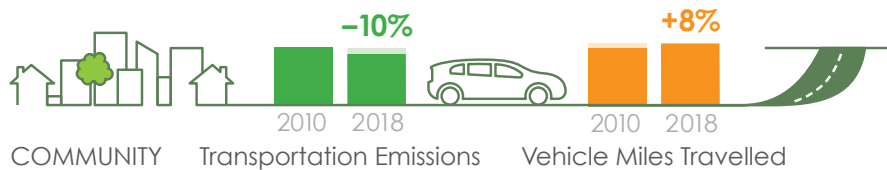

47,673 kWh saved per year and \$10,500 in avoided electricity costs from LED light upgrade project at Memorial Park Tennis Courts.

Alternative Transportation

Transportation is the second largest source of emissions in Cupertino as heavy traffic congestion from cars and trucks—powered by dirty fuels (gasoline and diesel)—create pollution in our community. The City encourages alternative ways to travel around Cupertino that reduce pollution: walking, biking, taking public transportation, and switching to clean vehicles (electric and fuel cell vehicles).

2018 Highlights

7% increase in miles traveled to work by municipal employees, but a 9% decrease in emissions compared to 2010. This is a result of municipal employees driving more fuel-efficient vehicles.

Cupertino's 95014 zip code has the second highest number of electric vehicles in the Bay Area.

6,624 EV/hybrid/fuel cell vehicles registered in Cupertino

40,216 gasoline/diesel/other vehicles registered in Cupertino

14% of vehicles registered in Cupertino are EV/hybrid/fuel cell

9% of vehicles registered in Santa Clara County are EV/hybrid/fuel cell

Bicycle Transportation Plan

Safer, "Class 4" bike lanes are being installed on McClellan Road from Byrne to Torre (expected to be complete by 2021). Separated bike lanes encourage more bicycling by providing protection from traffic.

Councilmember Rod Sinks joins Cupertino City staff for Bike to Work Day.

Renewable Diesel in City Fleet

Two key actions led to a 32% decrease in City fleet emissions since 2010: Public Works staff added electric vehicles and hybrids to the fleet and switched to renewable diesel for all diesel fleet vehicles. Renewable diesel is made from waste and residues, such as animal fats from food industry waste and used cooking oil.

Compared to 2010

3% decrease in gallons of fuel used

32% decrease in City fleet emissions

Water Conservation

2018 Highlights

17% reduction in per capita water usage in the community (compared to 2010).

ACHIEVED Bay Area Climate Compact's 2018 Goal for municipal water savings: City reduced municipal water usage by 22% since 2008.

City Hall Demonstration Garden

On August 22, the City of Cupertino held a ribbon cutting ceremony and guided tour of the City Hall Demonstration Garden. **Switching to drought-tolerant plants is saving the City over 400,000 gallons of water annually.** The Demonstration Garden is a place for residents to learn about Bay Area native and drought-tolerant plants. The City's Geographic Information System (GIS) team created an interactive virtual demo garden as a learning tool for drought tolerant plants: Cupertino.org/demogarden.

Left to right: Sustainability Commission Chair Anna Weber, Councilmember Darcy Paul, Mayor Steven Scharf, Vice-Mayor Liang Chao, Santa Clara Valley Water Board Vice-Chair Nai Hsueh

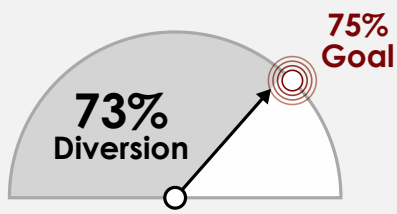

City Hall Garden

- Why we should choose water conserving, native plants
- Three reasons to save water
- Other things you can do to conserve water in your garden

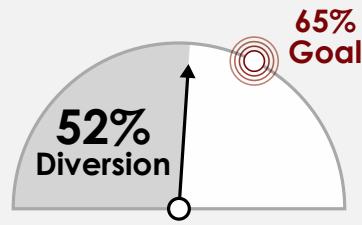

Reduce Solid Waste

The Cupertino City Council adopted a Zero Waste Policy in 2017. The City’s Environmental Services team tracks how much Cupertino waste goes to the landfill versus recycling and composting. Methane, a potent greenhouse gas, is released when food scraps, paper, and other organic materials rot in a landfill. The City offers organics collection service to divert food, food soiled paper, and yard waste from the landfill and reduce emissions. In 2018, Environmental Services conducted a single-family waste characterization study and found that nearly 80% food waste was not being diverted. The City is using the results of this study to adjust its programming and outreach efforts.

Current Community Diversion Rates

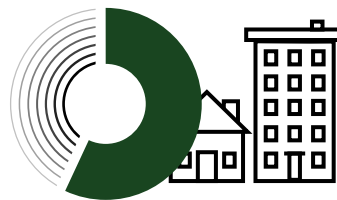

City's goal is to divert 75% of community-wide solid waste from the landfill. Current diversion rate is 73%.

City's goal is 65% of construction and demolition (C&D) waste diverted from the landfill. Current C&D diversion rate is 52% (2018).

Focus on Composting

57% of commercial and multifamily accounts with organics collection service (2018).

Conducted pilot “lid flip” visual audits and targeted outreach regarding food scraps collection to 393 households in 2018.

Households divert 21% of food scraps and compostable paper.

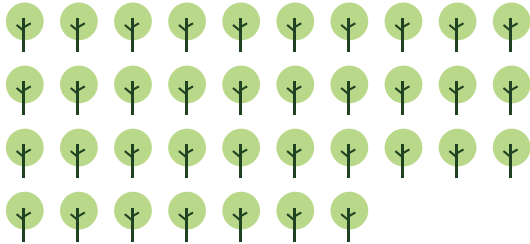

Households divert 100% of yard waste.

Natural Resources

2018 Highlights

186 Trees Planted

Tree Plotter App

Residents can now visit the new Tree Plotter application to view the benefits of individual City trees or the entire City-wide canopy. The app includes a tree's overall monetary benefit, property value, runoff prevention, energy savings, heat prevention, and air quality benefits among other factors. Residents can also check when a tree was planted, when it was last pruned, and its maintenance history: cupertino.org/trees.

Tree Canopy Assessment

An assessment was conducted to determine the distribution of existing and potential urban tree canopy throughout Cupertino. Cupertino contains 23% urban tree canopy and 48% impervious surface. Inspiration Heights neighborhood had the highest canopy coverage at 39% and comprised 18% of the city's total existing canopy.

Total Study Area

7,231 Acres

Tree Canopy

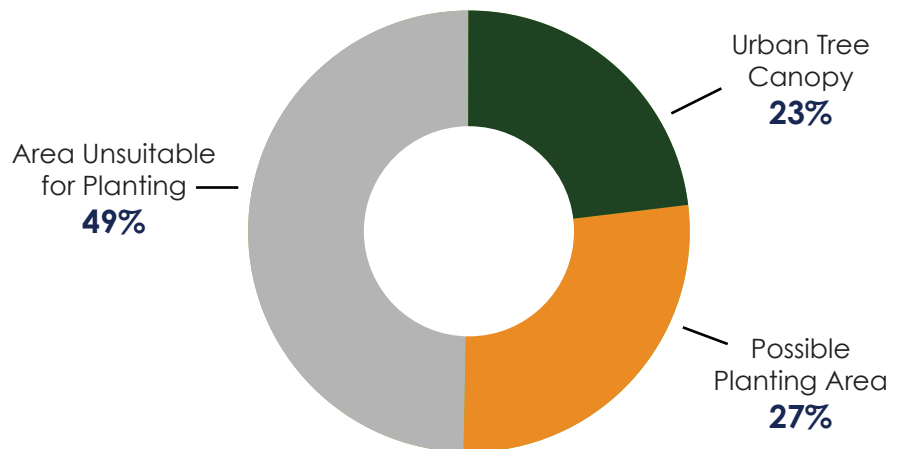

2009: 1,718 Acres (23.8%)
2018: 1,684 Acres (23.3%)

Plantable Space

1,983 Acres (27%)

Urban Tree Canopy Potential

9%

Tree canopy overhangs an impervious surface.

Note: Urban tree canopy percentages are based on land area only.

Active and Upcoming Projects

- Sustainability Commission and City Council considering “reach codes” for Cupertino to require higher standards locally for green building and electrification of newly constructed buildings (expected to be adopted in 2020)
- CAP 2.0 with Adaptation Plan (in planning stage)
- Green Stormwater Infrastructure Plan adopted by City Council September 2019
- Launch of Via-Cupertino shuttle November 2019: cupertino.org/shuttle

Mayor Scharf accepts Beacon Award at League of Cities Conference, October 2019

Via Cupertino Shuttle Launch – left to right, Assistant City Manager Dianne Thompson; City Manager Deb Feng; Councilmember Jon Willey; Mayor Steven Scharf; Chris Corrao, Senior Transit & Transportation Planner; Roger Lee, Director of Public Works

The Challenge Ahead

While Cupertino and other cities have met their 2020 emissions targets, future carbon emissions targets are at risk. It is clear that the path ahead contains some of the most difficult to achieve emissions and air quality improvements – namely fossil fuel combustion in buildings and by cars. A 2018 report by the Bay Area Council Economic Institute* indicates that sustainable, affordable, transit-oriented housing near job centers offers great potential. The U.S. Environmental Protection Agency estimates** that transit-oriented housing will reduce vehicle miles traveled by 20–40% and emissions from transportation by 9–15% by 2050. As our electricity becomes cleaner, decarbonizing buildings - switching from natural gas to electric appliances - is also an effective and economically compelling path. Achieving this goal will require market transformation, consumer engagement, and public policy changes in the short term.

The other great challenge for Cupertino is to address the increasing climate risks to our infrastructure and health. Resilience is demonstrated by the ability of the individuals, institutions, businesses, and systems within the community to survive, adapt, and grow no matter what chronic stress or acute shock it experiences. Because a changing climate affects every sector of our economy and every community in our state, we have the opportunity to prepare for the future together. We are looking forward to working with our community on these challenges in the coming years.

CUPERTINO GREEN

[REDACTED]
Cupertino, CA 95014
October 24, 2019

Dear Mr. Manuel Barragan,

I am writing to express my appreciation for the help and advice you gave me recently. I didn't realize that my contractor should not have put a pile of dirt on the street. He was trying to get all the dirt removed so that it could be picked up all at once. When I mentioned it to him he arranged to have it picked up right away. When they didn't come to pick it up, he shoveled it into our driveway until it could be picked up.

I really appreciate your kind and understanding, respectful, yet professional manner, informing me of the city's rules and regulations, and yet giving me an opportunity to have it removed. You were also helpful in answering other questions I had regarding city rules and regulations. I believe you should be commended for your excellent customer service. Therefore, I am forwarding this to the City Manager.

Thank you again.

Sincerely,

Donna Ingmire

Re: Appreciation for Manuel Barragan

Dear Ms. Ingmire,

Thank you very much for taking the time to provide me your appreciation for Manuel Barragan and the way he provided you information about the City ordinances. We appreciate having employees like Manuel who provide good customer service and address customer questions and concerns.

I'd again like to thank you for reaching out to me regarding Manuel's excellent service.

Sincerely,

A handwritten signature in blue ink, appearing to read "Roger Lee". The signature is fluid and cursive.

Upcoming Draft Agenda Items

City Council

Tuesday, December 3, 2019

Consent Calendar

- 19-4925 Subject: Award Blackberry Farm Pool Plastering Contract
- 19-5184 Subject: Approve the November 5 City Council minutes
- 19-5185 Subject: Approve the November 19 City Council minutes
- 19-5241 Subject: Declare properties as having potential fire hazards from weeds and set a hearing date of January 21 to declare a public nuisance and to consider objections for proposed removal
- 19-6479 Subject: Approve the November 8 City Council minutes

Public Hearings

- 19-6403 Subject: Cupertino Municipal Code Amendments to specify development standards in the Planned Development Zoning District (Chapter 19.80 - Planned Development (P) Zones) and adopt an Addendum to the Final EIR prepared for the General Plan Amendment, Housing Element Update, and Associated Rezoning Project (State Clearinghouse No. 2014032007). Application No(s): MCA-2019-005, EA-2013-03; Applicant(s): City of Cupertino; Location: citywide
- 19-6405 Subject: Municipal Code Amendments to City standards for parkland dedication and fees (Chapter 13.08 - Park Land Dedication Fee and Chapter 18.24 - Dedications and Reservations); adopt an Addendum to the Final EIR prepared for the General Plan Amendment, Housing Element Update, and Associated Rezoning Project (State Clearinghouse No. 2014032007).

Ordinances and Action Items

- 19-6527 Subject: General Plan Consistency for Regnart Creek Trail, Linda Vista Trail and Community Garden
- 19-5219 Subject: Amend Recology Franchise Agreement to reflect unforeseen changes in HHW service
- 19-5830 Subject: Recology Recycling Reimbursement
- 19-5959 Subject: Authorize execution of Design Services Agreement for All-Inclusive Playground

Reports by Council and Staff (10 Minutes)

- 19-5173 Subject: Report on Committee assignments

Thursday, November 14, 2019

Election of Mayor and Vice Mayor

- 19-6485 Subject: Councilmembers elect Mayor
19-6486 Subject: Councilmembers elect Vice Mayor

Oath of Office

- 19-6487 Subject: Mayor takes Oath of Office
19-6488 Subject: Vice Mayor takes Oath of Office

Comments by New Mayor

- 19-6489 Subject: Comments by new Mayor and presentation of gavel plaque

Comments by Councilmembers and Public

- 19-6490 Subject: Comments by Councilmembers
19-6491 Subject: Members of the audience are invited to speak (no Speaker Cards necessary)

Reception

- 19-6492 Subject: The public is invited to attend a reception in the lobby

Tuesday, December 17, 2019

Closed Session

- 19-6265 Subject: Public Employee Performance Evaluation (Gov't Code Section 54957). Title: City Manager

Consent Calendar

- 19-6499 Subject: Resolutions declaring a trusted system for the management of records and the automation of retention requirements, and amending the City's Records Retention Schedule and authorizing the destruction of records.
19-6500 Subject: Resolution approving a policy on attendance and minutes for closed sessions.
19-5186 Subject: Approve the December 3 City Council minutes

Second Reading of Ordinances

- 19-6518 Subject: Cupertino Municipal Code Amendments to specify development standards in the Planned Development Zoning District (Chapter 19.80 - Planned Development (P) Zones) Application No(s): MCA-2019-005, EA-2013-03; Applicant(s): City of Cupertino; Location: citywide

Public Hearings

- 19-6526 Subject: Adoption of Local Amendments to 2019 California Energy & Green Building Standards Codes - Reach Codes (First Reading)
17-2380 Subject: Consideration of a restated lease with San Jose Water Company

Ordinances and Action Items

- 19-6002 Subject: Adopt City of Cupertino Ethics Protocol

Thursday, November 14, 2019

Santa Clara County Office of the Sheriff
Weekly Activity Summary
10/21/2019 – 10/27/2019
CUPERTINO

PATROL ACTIVITY SUMMARY

DATE	BEAT	ACTIVITY	COMMENTS
10/21	C9	Petty Theft	Between 8:00 AM and 4:00 PM on 10/6, unknown suspect(s) took a mail package from a residence in the 10000 block of Stern Avenue for a total loss of about \$460.
10/21	C9	Residential Burglary, Possession of Burglary Tool	At 3:30 AM on 10/16, an unknown suspect entered the parking structure of a residential condominium complex in the 20000 block of Stevens Creek Boulevard, used bolt cutters to cut a chain link fence enclosing a bike storage area, and took a bicycle for a total loss of about \$327.
10/21	C8	Grand Theft	Between 11:00 AM and 1:30 PM on 10/18, unknown suspect(s) took envelopes containing cash and a passport from an unattended backpack in a shopping cart at TJ Maxx in the Cupertino Crossroads shopping center on Stevens Creek Boulevard for a total loss of about \$3,000.
10/21	C9	Theft by False Pretenses	Between 9:00 AM on 10/20 and 4:00 PM on 10/21, the victim received multiple phone calls from unknown suspect(s) after applying for loans on-line, believing the suspect(s) worked with the loan companies, and provided money via a gift card for a total loss of about \$50. The victim lives in Cupertino.
10/21	C5	Possession of Controlled Substances ARREST	At 7:33 AM, deputies made contact with a pedestrian in the area of N. Wolfe Road and Interstate 280. An investigation revealed the suspect pedestrian was in possession of Cocaine and Methamphetamine, and had two outstanding warrants. The suspect was arrested and booked into Main Jail.
10/21	C9	Vehicle Tampering, Petty Theft	Between 9:00 AM and 5:49 PM, unknown suspect(s) took the rear license plate of a vehicle while it was parked in a residential complex in the 19000 block of Portal Plaza for an unknown total loss.
10/21	C5	Non-Injury Collision	Occurred at 9:39 AM at Pruneridge Avenue and N. Wolfe Road.
10/21	C9	Vehicle Burglary	Between 5:30 PM and 6:00 PM, unknown suspect(s) broke through a window of a vehicle parked near Liang's Village Cuisine in The Marketplace shopping center on Stevens Creek Boulevard and took a backpack for a total loss of about \$100.
10/21	C5	Vehicle Burglary	Between 5:50 PM and 6:11 PM, unknown suspect(s) broke through a window of a vehicle parked at Main Street Cupertino on Stevens Creek Boulevard. The vehicle was searched, but nothing was taken.
